HUNDREDS CHANGING COUNTY REGISTRATION

**Eighteen Hundred Republicans Declare
They Were Fraudulently Registered
as Progressives**

**Make It Your Duty to See That You Are at
Once Registered Under Your Proper
Party Designation**

Adding 450 more spurious registrations from 1,200 letters to the list of Progressive registrations found to be wrongfully recorded, the county clerk's office investigation has announced today a total of 1,887 bogus Progressive registrations out of 5,500 answers to letters sent out to voters by County Clerk John P. Cook. These were the figures this morning, but a large batch of new replies, now awaiting count, will add to the list tomorrow.

"We are so busy now with the verification of petitions that, short-handed as we are, we have not had time to fully go into the matter of these letters yesterday or today," declared County Clerk John P. Cook. "We will get at it again this afternoon, in all probability."

"In the meantime we are keeping the office open evenings for registrations and changes in registration brought about through this investigation. While we have deputies on the outside I do not know where these may be located, for there is no fixed registration office outside."

"Therefore all voters desiring to place themselves right on the great register should come directly to this office in the court house, and nowhere else."

"We will keep the office open until 9 o'clock every night until the registration is closed, with the exceptions of Saturdays, Sundays and holidays. Every voter desiring to be put right on the rolls must appear personally at this office so to do. This will be the only office where changes should be made."

ONE OUT OF THREE WRONG.

"The ratio of bogus registrations, according to the answers received to the letters I have sent out, seems to keep at a steady figure of about one bogus registration out of three. We are getting many changes daily. Personally I cannot tell how many, for my clerks have had no time to check them up yet, and no attempt will be made to do so until after the polls have been closed."

"From all indications it appears that it will make a great difference in the county registration, and it is probable that it will place the Republicans close to if not in the lead."

Today work on counting up the bogus registrations was temporarily halted to allow the clerks time to go over the petitions for different state and county office nominations which were filed yesterday the last day for the submission of such documents. It will not be until tomorrow, according to Chief Deputy Andrew Johnston, that a full list of verified petitions will be available, every name in every petition being gone over before the petition is entered in the books. The state office petitions are verified here and then forwarded to the office of the secretary of state at Sacramento. The county petitions are kept here. Another big petition at which the clerks are now working is the initiative petition filed by the druggists physicians of the county, calling for a law licensing the profession.

'Will-o'-the-Wisp' Becomes Court Ward

Priscilla, or "Brucilla" Kimmis, known as the "Will-o'-the-Wisp" of the law in Los Angeles, alleged fugitive from the probation home there, and charged at the present time with aiding her father, Brennan, alias Kimmis, in bad check operations in Hayward, has been placed officially under the protection of the Alameda County Juvenile court. She and her small brother, John, were officially placed on the books of the Juvenile Court by Judge Harris this morning as "Alleged neglected," and as such will be cared for here while the father is held in the county jail pending a trial on a charge of passing spurious checks on N. K. Nissen, a Hayward merchant.

Revolutionary Panic in Haytian Capital

PORT-AU-PRINCE, Hayti, July 17.—A panic was caused by a revolutionary outbreak, accompanied by a considerable amount of shooting, in the streets of the Haytian capital at 10 o'clock this morning. The rising was quickly suppressed by the government forces and order restored.

RETAKE CAPTURED TOWNS.

General Leon Duque, with a government force, recaptured today from the rebels the towns of Peredu, Midl and Milot, and established communications with the column commanded by the president, which has another rebellion organized on the plains of Limonade.

Another force of government troops took Fort Deronville and then began its march on Guanaminthe, the principal stronghold of the rebels.

Miners Fear Attacks By I. W. W. Agitators

WHEELING, W. Va., July 17.—Pumpers and engineers in twenty mines in this section returned to work this morning on the advice of union miners to offset the Industrial Workers of the World, who are active throughout the district. Union miners believe a settlement of the strike is near and much time will be lost in preparing the mines for workmen unless engineers and pumpers are allowed to start now.

Lynch Law Is Revived To Avenge Small Girl

BAKER, Ore., July 17.—Twelve masked men lynched an unidentified man yesterday in the canyon between Audrey and Whitney, Ore. The victim, who had attended the right school, was the son of J. B. Hardman of Audrey, was being taken to Whitney by Hardman, where he was to be turned over to a deputy sheriff. He had been caught late Wednesday night by ranchers. When the sheriff arrived this morning the mob had dispersed.

It Was Baker county's first lynching in years.

Senate Makes Report On Georgia Suffrage

ATLANTA, July 17.—An adverse report was reported by the Senate committee on constitutional amendments yesterday on the measure to give Georgia women the right to vote in state and county elections. Similar action was taken recently by a house committee.

DYNAMITERS BLOW UP MINES

**Union and Non-Union
Coal Workers in a
Wild Clash**

Mammoth Vein Coal Co. Plant Scene of Riot and Wreck

FORT SMITH, Ark., July 17.—Reports received here today state that fighting is in progress between union and non-union miners at the plant of the Mammoth Vein Coal Company at Prairie Creek. One mine tipple has been burned, it is stated, and another dynamited. Telephone wires to Prairie Creek are down and details are lacking. A strike has been in progress at the Prairie Creek mines for months.

Advices from Huntington says mines Nos. 1 and 4 have been destroyed by dynamite and fire.

The sheriff's office at Greenwood has sent a posse of officers to the scene of the rioting.

Mrs. Carman Pleads Not Guilty; Gets Bail

MINEOLA, N. Y., July 17.—Mrs. Florence Carman was arraigned in the Supreme Court here today before Justice Van Sickle upon an indictment returned yesterday charging her with manslaughter in the death of Mrs. Louise Bailey, a patient of the defendant's husband. She pleaded not guilty and was given two weeks to prepare her defense. Counsel for Mrs. Carman suggested that she be liberated under \$20,000 bail and to this District Attorney Smith agreed.

The prisoner looked very wan and pale when she was brought to the jail to the courtroom. Her husband, Dr. Carman, stood beside her. When the preliminaries of giving bail had been adjusted he said he would take her out of the village at once.

Works Flays Trust Program as Unjust

WASHINGTON, July 17.—Senator Works, Republican, told the Senate today that the administration's trust program filled him with amazement. "If the business of the country is dishonest enough and oppressive enough to justify such legislation as is proposed by the three bills, our condition would seem to be hopeless and to remedy conditions by law impossible," said he.

Businessmen Endorse New Annexation Plan

The Oakland plan of solving the city and county consolidation government was unanimously endorsed this afternoon by the membership committee of the Commercial Club.

The committee ratified the proposed amendment for which initiative petitions are now being signed. This amendment, an alternative for that advocated by San Francisco, protests Alameda county by preventing annexation across the bay, and permits of 50,000 population to hold elections on city and county consolidated government.

A. S. Lavenson presided.

TIREY FORD RESIGNS AS COUNSEL

**No Longer Leading At-
torney for United
Railroads**

SAN FRANCISCO, July 17.—Tirey L. Ford, chief counsel of the United Railroads Company since its formation in the late nineties, has quit his position.

William M. Abbott, who was made general attorney for the corporation three or four years ago, will attend to most of the legal affairs of the corporation under that official title.

The larger legal matters will be handled by President Lillenthal, who is an attorney of ability.

Ford's loss of a fine legal job, for which, it is said, he has been drawing down a salary of between \$15,000 and \$20,000 a year, has been the subject of gossip all this week in the legal attorneys' offices and among the various corporations' headquarters, a fact about which the local daily papers have been in ignorance.

Some have it that Ford voluntarily resigned and has left the street railway combine with the best of feelings for its new and third president, Jesse W. Lillenthal.

Others assert that Ford was forced out through a strict spirit of economy, in fact a drastic desire for retrenchment.

According to what these other people say, the next official head to be officially decapitated will be that of Thornwell Mullaly, the first vice-president, who was brought out here and placed with the road by Patrick Calhoun when he was president.

Ford was first made chief counsel on the recommendation of R. G. Hanford. The latter had Ford as his legal adviser when he was buying up the street railroads for Brown Bros., the New York bankers. Ford was the attorney who formed the United Railroads Company as a combine which absorbed the local lines.

Arthur Holland was sent out from the east by Brown Bros. as the company's first president. He formally appointed Ford as chief counsel. When the property was taken over by Patrick Calhoun and Ladenburg, Thimman & Co. New York bankers, they retained a law firm in the person of Ford to accept the job originally.

He took along with him one of his assistants, W. M. Abbott. Now the latter is retained in a splendid job while Ford has "lost out."

Frederick B. Van Vorst of New York, who is now at the St. Francisco, has long been an attorney for the company.

LASSEN PEAK NOW HAS ERUPTION ON DAILY SCHEDULE

REDDING, Cal., July 17.—Lassen peak is now giving almost daily performances. At 6 o'clock this morning the twentieth eruption shot skyward in a pillar of blackened steam. The phenomena were the same as those described before and of about equal intensity.

CHANGE OF REGIME IN PROGRESS

**Carbajal Plans to Turn
Over Government to
Carranza**

**Rebels Say They Will
Not Permit Huerta
to Reach Coast**

BULLETIN.

BROWNSVILLE, Tex., July 17.—San Luis Potosi has been surrendered to the Constitutionalists, according to unofficial dispatches received in Matamoros, opposite Brownsville, today. The messages, which were sent from Monterey, gave no details.

WASHINGTON, July 17.—The United States continued today to exert its influence with General Carranza to bring about an immediate cessation of hostilities and an agreement with the Carbajal government for the peaceful transfer of power at Mexico City to the constitutionalists. John R. Silliman, personal representative of President Wilson with Carranza, received further instructions urging him to impress on the Constitutional chief the advisability of giving guarantees for the protection of the lives and property of those who had supported the Huerta government. Besides endeavoring to obtain a general amnesty, representations on behalf of the clergy in Mexico, now in disfavor with the Constitutionalists, have been made by Silliman.

Jose Castellot, representative here of Francisco Carbajal, Huerta's successor, was occupied during the afternoon sending dispatches to Carbajal detailing the results of his conferences with Secretary Bryan and the South American mediators.

Definite official advice came through Castellot that the commission of three Constitutionalists, who started from Mexico City on Wednesday to talk with Carranza, was authorized to negotiate with him for the transfer of the government at Mexico City. It probably will be two or three days before the commissioner, in connection with the interrupted communication, will be able to reach Carranza.

AMNESTY CONSIDERED.

On the outcome of the conference and the assurances given by Carranza, as to an amnesty of the adjustment of claims will depend whether recognition will be accorded Carranza by the United States at once or be indefinitely delayed.

Looming up as an ultimate complication in the situation is the proposed repudiation by Carranza of the financial obligations incurred by the Huerta regime. Since that administration was recognized as legal by the powers of Europe every effort will be exerted by them to maintain the validity of the claims of their subjects.

While Carranza has given notice of his intention to repudiate such debts, there is some confidence in diplomatic circles here that he will not care to invite the disapproval of Europe at the very beginning of his administration and it is being suggested that an international commission to adjudicate such claims will be formed. The powers of Europe may also discuss recognition until they receive definite assurances as to how such claims are to be treated.

WANT PROPERTY RESTORED.

The Spanish government is already active in seeking to have restored the property of those subjects driven out by the constitutionalists. The ambassador had a conference with Secretary Bryan today. Later Minister Xaon of Argentina also discussed Mexico with Secretary Bryan.

Mr. Castellot later received a message from Provisional President Carbajal declaring that he would make no further appointments of members of the cabinet and that he had chosen General Velasco as secretary of war.

Candidates' Petitions Jam Office of Clerk

With nomination petitions, initiative petitions, and election papers piled high about County Clerk John P. Cook's desk, a force of deputies today started work on verifying the candidates' petitions filed yesterday, the last day for filing both state and county offices. The petitions so far verified include only a small portion of the total.

awaiting examination, according to Deputy County Clerk A. E. Johnson, and it may not be until late tomorrow that the entire list is ready. In every case signatures of people who have moved since signing, and other signatures disqualifying through no registration, have been eliminated, usually, according to the clerk's office, two or three of these so a petition.

AUTO HITS WOMAN STOCKHOLDERS SUE

**Aged Mrs. N. Nelson Is Run
Down and Injured at Down-
town Corner.**

Mrs. N. Nelson, 70 years of age, is at the home of her daughter, Mrs. Chester F. Darling, 1637 East Twenty-first street, suffering from a fracture of the clavicle and possible internal injuries received when she and her daughter were run down today by an automobile at Twelfth and Broadway. The two women were attempting to cross the street when they realized their danger as the machine was bearing down upon them. They tried to get out of the way, but Mrs. Darling was struck and thrown against her mother, knocking her to the pavement.

The automobile is said by the police to have been driven by an employee of J. W. Levison, Twenty-ninth and Broadway. The machine drove away after the driver had arranged to have the women taken home, but before Patrolman Fleming, who went to the place, could obtain the name of the driver. According to the report of Fleming the automobile was driving south on Broadway when the accident occurred. The two women attempted to cross the street, but failed to see the automobile until it was too late to save them.

Mrs. Nelson, who is somewhat feeble, was taken to the home of her daughter, where she is under the care of a physician. It is feared the injuries may have serious consequences because of Mrs. Nelson's age.

Chester Darling is a well known proprietor of several pharmacies.

The police are making an investigation of the case and will attempt to discover the name of the driver of the automobile and find out how far he was culpable in the accident.

Dr. Louis Lohse is in attendance upon Mrs. Nelson and has taken an X-ray and discovered that there are also injuries near the base of the spine.

ALBANY, July 17.—Fred A. Hall, of 1215 Main street, was painfully injured last evening at Fort Bragg, supposedly in an automobile accident. Word was received here that he was seriously injured.

over long distance telephone, this morning. Beyond the fact that he had suffered three broken ribs, no detail of the accident was given.

Myron J. Hall, of 1201 Main street, left this forenoon for Fort Bragg to bring his brother home. Hall had gone to Humboldt county in a machine on real estate business. He had returned as far as Fort Bragg when the accident occurred.

Ask Receiver for Road and Attempt to Recover Sum of \$306,000,000.

(Continued From Page 1)

Haven stock and bring the action "in behalf of themselves and all other stockholders of said corporation who may become parties."

The bill of complaint declares that the defendants, on account of breach of directors' duty, chiefly through causing the New Haven to acquire illegally its Boston & Maine, trolley and steamship properties, are bound to pay to the New Haven \$150,000,000, the sum of the stockholders' claims for ultra vires and illegal purposes. It is alleged that the losses resulting from these acquisitions approximate \$102,000,000 and that under the federal anti-trust act the New Haven is entitled to recover from the defendants three fold that sum, or \$306,000,000.

REPUBLICANS READY FOR BATTLE

Alameda County Committee Qualifies All of Its Candidates

The close of the last day for filing nominating petitions saw the completion of a big task by the members of the executive committee of the Alameda county Republican committee, it being the filing of papers on behalf of thirty-eight candidates for the Republican county central committee, who will take the places of the present committee after the election shall have been held.

In addition to these the nomination of Dr. David P. Barrows, of the University of California, to be a delegate to the Republican state convention and the nomination of Wilson S. Gould of Oakland for a similar place were filed.

The circulation of these forty petitions has been a task, but it was safely accomplished and the committee is assured of the service of each person nominated.

The list as made up is:

Thirty-fourth District—David McReynolds, J. D. Norris, Center, Peters, San Leandro; Henry Reichardt, San Leandro.

Thirty-fifth District—Mrs. H. J. Platts, Alameda; A. E. Lorber, Alameda; J. B. Lanktree, Alameda; Thomas H. Haskins, Alameda; William Hammond, Jr., Alameda; W. H. Foster, Alameda; J. H. Schwartz, Oakland; H. D. Perry, Oakland; Walter B. Fawcett, Oakland; Charles E. Murrell, Oakland; Herbert Houser, Oakland; Mrs. Camilla Buerger, Berkeley.

candidate for office, though the club's duties are not to govern us as individuals. This is to be a permanent organization, not made merely for this campaign, but continuing after the November elections have passed. After that election there will be plenty for us to do, entertaining prominent party men who come west and continuing our study of political problems. We want this body to be of state-wide significance, indicative of the new spirit in politics that makes for progress."

As the campaign progresses the candidates for governor on the Republican, Progressive and Democratic tickets are warming up rapidly and each day witnesses some utterances more noted than that of the day previous. In the Republican ranks Keessling, Belshaw and Ralston appear to be doing the most work in the matter of criticizing Johnson, although Captain Fredericks, in his address, has several times indicated in some casual conversation.

At the state administration. Last night Keessling spoke at Visalia, a telegram to THE TRIBUNE announcing the meeting as one of the largest ever held in that city. During the evening Keessling challenged Governor Johnson to define his position on the state-wide prohibition law, the red-light abatement bill and the universal eight-hour law. Several Progressive newspapers have asked the Republican candidates to take a position on these matters and Keessling is returning the compliment.

W. C. Ralston spoke at Placerville last night. In his address he denounced the water commission bill which is to go on the ballot at the November election on a referendum vote, as a dangerous measure and advised his hearers to defeat it. Ralston claims if the bill becomes a law it will tie up all matters connected with riparian rights for a term of years until the streams can be measured and other necessary action taken and will work a great hardship on citizens of the state. He also assailed the eight-hour law and the amendment for state-wide prohibition.

Charles King, of Kings county, Democratic candidate for governor, spoke at Chico last evening, giving his reasons for believing the Democrats will win in the coming election. Mr. King will speak at Red Bluff tonight.

Eugene Bowles, publicity manager for Fred H. Hall, Democratic candidate for governor, was in Oakland yesterday afternoon securing signatures to a nominating petition for his candidate. Bowles, who is a newspaper man endowed with the gift of prophecy, says his man will secure the nomination, with Sidney M. Van Wyck of San Francisco, second. Hall will address the Incoquo Club in San Francisco tonight and will be a speaker at the Gaelic picnic at Shellmound Park tomorrow. Hon. John B. Curtin, another Democratic candidate, will also appear.

Captain John D. Fredericks who is campaigning the San Joaquin and Sacramento valleys, will speak tonight in Stockton and tomorrow night in Sacramento. A. L. Shinn, candidate for lieutenant-governor, will preside at the latter meeting, which will be held in the Clunie Theater. In his speeches through the San Joaquin valley Fredericks has attacked the record of Governor Johnson on women's suffrage and other matters.

Sidney M. Van Wyck, Democratic aspirant for governor, has filed nominating petitions from twenty-seven of the fifty-eight counties of the state.

W. C. Ralston, Republican candidate for governor, has issued a statement to the effect that he favors the eight-hour law for the mechanic, artisan and city dwelling wage earner, but is opposed to it in the agricultural districts.

Hon. Joseph R. Knowland, candidate for United States senator, has opened headquarters in San Francisco and it is announced by his local managers that from this time on the fight made on his behalf will be one of the stiffest during the campaign. Knowland's supporters will contest every inch of ground in the city across the bay where the followers of Shortridge claim a decided advantage. The first work started was sending men north and south in the interests of the candidate. It is now said Mr. Knowland has the best working organization of any candidate in the field. Mrs. Knowland's work is said to be very effective. She has been delivering speeches nightly and it is claimed now that she has taken to audiences ranging from 100 to nearly 2000 persons. Mr. Knowland left for the south last night and will make a campaign through San Diego county. Tonight he will address a meeting of the California State Association of Letter Carriers which is holding its fifth biennial convention in San Diego.

W. W. Crittibus, Republican candidate for assembly from the Thirty-sixth district, has a unique campaign card in circulation. Mr. Crittibus has adopted for his slogan, "A business man who will make it his business to make business better."

Samuel M. Shortridge was speaker today at a luncheon given by the Social Economic Club in San Francisco, his topic being: "The Present Business Depression."

Twenty-four feet of names of candidates for office, initiative and referendum petitions and other propositions will be on the ballot for the general election. According to a statement made by J. Henry State, Jordan, the approximate size of the ticket will be 1152 square inches. It is the largest in the history of the state and will be two feet long, four feet wide and carry twelve columns of matter set four and one eighth inch apart. The number of names on the ballot will vary in size according to counties. San Francisco and Los Angeles county, where there are many superior judges to be elected, will be larger than the others. It is estimated that it will require much more time to vote than in previous years.

The following open letter from Jo V. Snyder to John Eshleman is interesting: "Nevada City, Cal., July 14, 1914. "Hon. John M. Eshleman, President State Board of Education, San Francisco, Cal.

"My Dear Sir: I am informed through the newspapers and from private sources that you have been nominated as a candidate for the Democratic and Republican tickets for the November election. I am a registered Democrat and a candidate for the Democratic nomination for lieutenant governor, but you are the avowed and unopposed candidate of the Progressive party, which you have designated by registration as your political affiliation.

"As I am a registered Democrat and a candidate for the Democratic nomination for lieutenant governor, this new nomination is a distinct surprise to me. I had really believed that you were at least one other Progressive candidate, aside from Governor Johnson, who has the courage and ability to lead the two electors of California, both before and after the primary, as a straight out Progressive candidate, but it appears that in this belief I have been mistaken. Under the circumstances I can only regard you as a political interloper, and believe that it is within my rights to address this open letter to you.

"Unlike your illustrious chief, who has positively stated that he will seek no other nomination than that of the party he and his associates have chosen for California, we find you, evidently afflicted with 'registration dementia,' at the eleventh hour attempting to 'limp' your way through to pursue the 'nomination' from two other great political parties, both of which have candidates within their own ranks.

INCONSISTENCY.
"I cannot for the life of me conceive how you are anything but inconsistent. It would not be so for you to seek the Democratic and Republican nominations if these two parties had no candidates of their own faith in the field, but in view of the fact that there is at least one regular Democrat aspiring for the Democratic nomination, and less than three regular Republicans after the Republican nomination, it appears to me as a contemptible piece of business for a member of one party to seek the nomination of another party, and to do so by fraudulent pretense the nomination of any other party. It certainly is a case of 'registration dementia' on your part.

"Unfortunately you made a mistake under the ambiguous and technical primary law, for which your party stands responsible. Are any of the candidates of any of the parties to the high offices of United States senator, governor, lieutenant governor, aside from yourself, attempting to force themselves upon an opposition party by such a device?

"How can you reconcile yourself with Governor Johnson while the pair of you are going up and down the state as the spokes of a progressive wheel, and talking the positive stuff to recruit, while the party ranks in seeking his nomination, and you with outstretched hands knocking over the nominations from three other political parties?

"One stands ready to make the fight with the single nomination of his party, while the other is apparently converting to form a party, and then at the last moment pretends to be a trust and rate buster. Is this consistency? Are you right or is Governor Johnson wrong?

"Governor Johnson does not appear frightened; why should you be? Can it be that the registration figures stagger you? If you have saved the people of California the millions that you claim, why should you be afraid of their verdict at the general election?

"My conception of the primary law as affecting partisan state offices is that it is intended as a sort of a clearing-house or elimination contest for the candidates of each party to settle their differences through the vote of their respective party members at the primary election, so that each party may present a formidable ticket for the people of the state to select from at the general election. Do you believe in refusing the people this privilege?

"Your great national leader, Theodore Roosevelt, left the Republican party because he claimed that the presidential nomination was stolen from him. He has steadfastly advocated to his flock that the Progressive party remain divorced from all other parties and either stand or fall as a follower of Roosevelt?

"Respectfully yours, "JO V. SNYDER. "Candidate for the Democratic Nomination for Lieutenant-Governor of California."

Charles P. Ellis, chairman of a committee of prominent attorneys in San Francisco, favoring the candidacy of Frederick S. Stratton, formerly collector

of the port of San Francisco, now a candidate for judge of the Third District Court of Appeal is doing some good work on behalf of the candidate with the community press. The Santa Cruz Survey editorially prints a communication from Mr. Ellis, and speaks very highly of the endorsements he has received. Other papers throughout the district have been giving Mr. Stratton very pleasing mention and endorsement.

Samuel M. Shortridge will make an auto tour of the northern counties next week. He is going up the coast and coming down through the interior. Mr. Shortridge will speak at Chico some time next week.

In his campaign for governor State Senator Charles M. Belshaw has traveled 2500 miles during the past eight weeks, making many speeches, and declares he never felt better in his life. Belshaw has been criticizing the record of Governor Johnson vigorously in all his speeches.

Judge William P. Lawlor of San Francisco, candidate for justice of the supreme court, conducted his own campaign and secured all the signatures to his nominating petition through volunteer solicitors, so that his preliminary campaign merely costs him the amount of the filing fee.

W. H. Barnes, president of the Ventura Republican Club, denies the report that his organization has endorsed Samuel M. Shortridge for United States senator. "We have not even considered the question," said Mr. Barnes.

At a meeting held in Lakeside Hall, the East Oakland Young Men's Progressive Club unanimously endorsed the candidacy of M. J. Kelly for the office of county treasurer.

There was a large attendance of the membership of the club, said the president of the club, said was due to the progressive activities of this club. The club is working hard for the big rally and election to be held the latter part of this month for furthering the candidacy of Kelly.

Enthusiasm is manifested by the women of Richmond over the big Republican rally which will be held by the California Women's Republican Club at Sequoia hall next Tuesday afternoon, beginning at 2:15 o'clock.

Mrs. Helen May Williams, candidate for lieutenant governor, is scheduled to speak as well as Mrs. Florence Richmond, president of the California Women's Republican Club, Miss Virginia Deal, an active worker for the club, and many others have consented to make addresses. The meeting is being arranged by Mrs. Nellie K. Cushing, who has issued a public invitation to every voter of her sex to come and hear the talks. There will be a number of patriotic songs.

Henry C. Petray, candidate for school superintendent in Alameda county, filed nomination papers yesterday. Petray is principal of Grant school and has had many years' experience along educational lines.

FIX RESPONSIBILITY IN STEAMER COLLISION
LONDON, July 17.—The British admiralty court today found the British steamer or more responsible for the collision on June 17 with the North German Lloyd steamer Kaiser Wilhelm II just after that liner had left Southampton for Cherbourg and New York.

THE "CAPITAL" OF THE OAKLAND, ANTOCH & EASTERN LEAVING REDWOOD CANYON.

The glorious weather of Contra Costa county is attracting many people to the valleys and canyons along the Oakland, Antioch & Eastern railway. Redwood canyon is the first canyon on the electric line passes through after entering Contra Costa county and is only twenty miles from the Fortieth street and Shafter avenue depot. Mount Diablo has been placed within the reach of the ordinary traveler since the line has been extended to

Diablo, where horses can be hired to ascend the mountain. A marvelous scenic view of the Contra Costa and bay country is presented to the gaze of the traveler who attains Mount Diablo's heights. The capital city trip to Sacramento has induced many to make the capital and the invaders have returned with praise of that progressive city and of its capital grounds, hotels, Riverside drive, Sutter's fort, Dreamland and art gallery.

SPEAKS ON VALUE OF WATERFRONT

Assistant Secretary Bradley Delivers Interesting Address.

With maps of the several sections of Oakland's waterfront hung upon the walls, Assistant Secretary D. H. Bradley of the local chamber of commerce, last evening delivered an exceedingly interesting address before the members of the Downtown Association upon "The Commercial Value of Oakland's Waterfront." He proved himself thoroughly conversant with all the facts and figures of the waterfront, and after all the pendulums by the city, and after all the large amount thus far expended showed large revenue producing at this time and could not be less.

He showed that the cement wharf at Livingston street with railroad tracks on the wrong side of the wharf it was impossible to connect with the "S" road without using a double or "S" curve to reach the main line. Mr. Bradley first told of his initial visit to Oakland and taking the Oakland Harbor ferry, seeing the possibilities of this city as a great port and realizing that the time would come when the harbor, undocked as it is, would be dredged with factories and wharves to which steamers from all parts of the world would be delivering freight, resulting in his ultimate decision to make this city his home. He claimed that the basis of Oakland's future greatness was its waterfront.

Citing the legal war waged by the Western Pacific railroad to gain entrance into Oakland, as the starting point of the development of the harbor, he then followed up his address with figures of the amounts appropriated for harbor improvements, even though not to the required depth, that but \$200,000 was now available to complete the work, which could not be any stretch of imagination, complete the dredging street work and warehouses to make the quay wall available for shipping.

Referring to the bond issue of 1909, at which time \$2,500,000 was voted for waterfront improvements with the stipulation that at least \$500,000 should be expended on the western waterfront, \$1,739,000 on improvements in the estuary or southern waterfront, and \$175,000 at least in improvements in the Brooklyn basin for the Livingston street wharf and showed that the southern waterfront had not received its share in accordance with the agreement.

He stated that the southern waterfront was the logical place for landing goods for the merchants as the haul was practically level, the distance to the principal business houses not one-third that to the western front, and the fact that all mariners were anxious to use a landlocked harbor at all times in preference to an open waterfront, as the protection from storms was worth sailing or steaming quite a distance to acquire.

SUGGESTS LAND ACQUISITION. To make the quay wall what it really should be, he opined that the city should acquire the land adjoining as far as First street. There is no money enough to dredge to the government channel and the only method to allow vessels to reach the quay wall will be a narrow channel into which a vessel may sail, and after leaving its berth upon the discharge of its cargo, will have to run alongside the wall to the upper end, before it may have a chance to turn. He showed by figures that the annual tonnage on the estuary was more than was credited to the entire harbor of Los Angeles or even the old Erie canal, yet no provision had been made to date to handle same by the municipality or not at least until the quay wall is completed. No part of the 2200 feet of wall is now usable for commercial purposes, and at the present rate of dredging, will not be in time to handle any freight that may come through the Panama canal for a long time to come after the opening of the canal. He thought the city should

GREAT LINERS TO RUN VIA CANAL NEXT YEAR

The first definite announcement made by any trans-Atlantic steamship company of a regular passenger service through the Panama canal to San Francisco, has just been issued by the International Mercantile Marine Company, an American corporation, and one of the largest shipping concerns in the world. This new line will place at the disposal of tourists the twin-screw steamers Finland and Kroenland, two of the finest and most modern American built trans-Atlantic liners ever launched. They

are equipped with Marconi wireless telegraphs, and the first sailings are scheduled for August 1 and 15, with the Finland, and are built along the most modern lines, accommodating 500 first cabin passengers, and 400 third cabin passengers. They will also carry a large freight tonnage.

The time of the trip will be fifteen days, and the first sailings are scheduled for August 1 and 15, with the Finland, and are built along the most modern lines, accommodating 500 first cabin passengers, and 400 third cabin passengers. They will also carry a large freight tonnage.

WHY WOMEN GO WRONG? LACK OF MONEY, 'TIS SAID

MILWAUKEE, Wis., July 17.—"Make woman economically equal with man and independent and you will have gone a long way toward the solution of the moral question," former Congressman Victor Berger told the vice investigating committee yesterday afternoon. "Pay women the same salaries as you do men and the morality of the sex will be raised, for it is an undebatable fact that the poorest paid furnish the greatest number of the immoral."

GILLIHAN AFTER QUACKERY

Urges Change in Ordinance Already Amended

That the repeal of a portion of the ordinance of the city, permitting the inspection of maternity homes and hospitals for women has resulted in blocking the control by the health department of places devoted to carrying on business of illegal operations, is the substance of a portion of the report filed with Commissioner of Public Health and Safety F. C. Turner today by Dr. A. F. Gillihan, city health officer. The ordinance was amended last March at the request of certain large hospitals raising the objection to the payment of an annual license imposed upon hospitals which had maternity departments.

The amendment provided that the terms of the ordinance with regard to the inspection of such places and with regard to the license should not apply to hospitals "for the care and cure of patients generally, and the general practice of medicine and surgery."

"It is now impossible to inspect, under the city ordinance any place carrying on hospital," declared Dr. Gillihan. "They easily place themselves in the exempted class by the mere statement that they are ready and prepared to receive any class of patients."

PROTECTION NEEDED.

"The intent of the law was the protection of women and mothers, to assist in the birth registration, and to control the business of carrying on illegal operations. It is a notorious fact that hospitals which were not intended to be homes very frequently engage in the business of procuring illegal operations. Unless the power is given to inspect all such places, just the ones that require the closest supervision are going to be the ones that will avail themselves of the exemption clause to the detriment of both the true maternity home and the general hospital."

"This ordinance was passed without consulting this department. It has effectively blocked all preventive work along this line. It is our hope that it will be repealed in the near future, and replaced by an ordinance giving better control of the situation."

The report shows that the health department has been enabled to exercise a wise control and inspection over homes for boarding children.

Organization of the health department under Dr. Gillihan since November has effected a number of economies in expense, while at the same time increasing the efficiency of the department over 50 per cent. It is set forth.

BETTER INSPECTIONS.

In the inspection department great improvement has been made, as is indicated by the report of the mileage of the automobiles. Several of the machines showed records as high as 1200 to 1800 miles a month on service in inspection of sanitation, plumbing, dairies, food, meat and other matters.

In the handling of diphtheria, anti-toxin for persons unable to pay the cost was reduced by more than one-half by a change in the method of obtaining the anti-toxin and in its distribution, instituted by Dr. Gillihan.

The records of vaccination have been systematized and the inspections of persons who have been vaccinated reduced to an adequate and inexpensive system. Records are kept of accidents to city employees, and the department sees to it that the injured persons are adequately cared for, and that there is no unnecessary expense for which the city will be held to account.

Dr. Gillihan has brought his budget estimates into accord with the new system of segregated budget, and has also welcomed the efficiency system and has applied and adapted it to his department with excellent results. Excerpts from the report follow:

SCHOOL VACCINATION.

"The state law requires that this office maintain a record of vaccination certificates of all school children and teachers in the city of Oakland. Certain of these certificates are good for seven years, that is, certificates of successful vaccination, and the health office certificate. All other certificates are good for one year only."

"The method heretofore in use in this office has been to register all certificates under individual schools. In practice this method has been found to be absolutely useless on account of the frequency with which some children change schools; for example, the writer knows of one child who attended five different schools in the past seven years."

"The full name of the vaccinated person is obtained, together with the date of vaccination; a card is made out for this person, and filed in a general file containing the names of all persons who have been successfully vaccinated within the past seven years. The certificate is then stamped upon the back, with a stamp which states the date the certificate was registered in the health office, and also the date when the certificate will expire."

"This method of handling and registering the certificates has materially reduced the work of this particular record system. A thousand certificates can now be handled in the time that it previously took to handle 200. Since this method was begun in April last at least 15,000 certificates have passed through this office, and the file now contains the names of at least 25,000 successful vaccinations."

BURIAL RECORDS.

"The state law demands that superintendents of cemeteries shall endorse upon all removal, cremation or burial permits a statement showing the final disposition of the bodies of deceased persons, and shall within 24 hours return these endorsed permits to the local registrar of the district in which the body was finally disposed of; in other words the state law intends that the local registrar shall have knowledge of all persons buried or otherwise disposed of within his jurisdiction."

"50,000 to 75,000 at least of these burial removal and cremation permits have accumulated in this office, running back over forty years. Frequent demands are made by persons desiring to ascertain from the official records, information regarding the final disposal of bodies of deceased persons, and it becomes necessary from time to time to issue certified copies of these official records. Heretofore these records have been accumulated without order, and it was impossible to ascertain the required information without a great deal of labor, much time being wasted in going over and over the records."

"The temporary clerk who was appointed at the end of December last, occupied the greater part of his time in arranging by alphabet, month and year, this mass of valuable material; and although this is not yet completed, his work has demonstrated its necessity and value by the ease with which these records can now be consulted. In time these will be arranged and permanently bound, as are the birth and death records."

STATISTICS RECOVERED.

"During the progress of the work it was determined that the city of Berkeley, the city of Alameda and the County Recorder, each had a great mass of these records which rightfully belonged in this office. The matter was taken up with these offices. Berkeley promptly sent the records belonging to us; the County Recorder took up the matter with the District Attorney, who informed him that this office was the rightful custodian of the records in question, and several thousand were handed over to us. Alameda has not as yet turned over the records that are illegally in her possession, but arrangements are being made so that this will be done in the near future."

"This work was stopped at the end of May, and unless taken up very shortly, and pursued diligently to the final binding the records will quickly become disarranged again, and the work of the past five months lost. This clerk's time was not given entirely to this one problem; the routine work of the office has so increased that the present office staff would have been unable to cope with it without his mattering from time to time. A great deal of work remains to be done in order to bring the office records fully to date, with the natural increase of office work following normal growth, such a person will be kept permanently busy, and the writer urgently suggests that this clerkship be made a permanent position."

U. S. ARMY ORDERS.

LUMBERMEN'S FAMILIES UNITED BY NUPTIALS.

MARSHFIELD, Ore., July 17.—Members of two prominent families of lumbermen were united by marriage at Coquille last night, when J. Stanley Dollar of San Francisco took as his bride Miss Esther Johnson of Coquille.

The groom is the son of Captain Robert Dollar, the millionaire lumberman and ship owner of San Francisco, and the bride is the daughter of Alfred Johnson, the veteran lumberman of Coos county.

Dollar came here to act for his father, who is trustee of the Johnson Lumber Company on the Coquille river.

WILL SHOW DUPLICATE OF "MIRACLE" PICTURE.

Oakland people are to have their first opportunity to see the duplicate of the famous miracle picture, "In the Shadow of the Cross," which has been exhibited in all parts of the world. Charles T. Spradling of Los Angeles will explain how the startling and apparently miraculous effects of the picture are produced by natural means. This exhibition is free to the public at California hall tonight.

TO CLAIM BROTHER'S BODY.

For the purpose of assuming charge of the remains of his brother, M. Rapp, of 1026 Cotton street, East Oakland, left today for Omaha, Neb., where William Rapp was naturally wounded while witnessing a shooting affray between rival gangsters last Tuesday evening. Rapp was one of a party of four killed there.

ALLEGED DESERTION.

Alleging willful desertion, Joe Adelphino Superior Court against George Allen Aldridge, complaining that in April of 1910 he was deserted and that her husband has not since supported her. She asks the custody of two children and alimony.

BOY DISAPPEARS.

Smith, eight years of age, has disappeared from his home, and the police have been asked to search for him. The report was made by Mrs. Eva Marchant, 1247 Eighty-fourth avenue.

ASK DISMISSAL OF INJUNCTION

Agreement Entered Into Between Water Company and City.

Dismissal of the injunction suit by the Peoples Water company against the city of Oakland attempting to sell Central reservoir land for the assessment levied for the improvement of Twenty-third avenue was asked today as the result of a tentative agreement entered into last night between representatives of the company and the city.

The agreement will settle the complicated street tangle about the streets east and west of the reservoir between Hopkins and East Twenty-ninth streets. By the terms of the agreement, the city will abandon Twenty-third avenue, the company will interpose no objection to a street being put through east of the reservoir connecting Sheffield and East street.

The Twenty-third avenue improvement will not be interfered with, and the company will pay its assessment, and collect damages as recommended in the report of the street commissioners.

CITY TO HAVE FOREIGN TRADE COMMITTEE

Development of foreign trade in this city, both in imports and exports, will be taken up by a foreign trade committee to be appointed by the Manufacturer's Committee of Oakland Chamber of Commerce. The foreign trade committee will work in conjunction with the foreign bureau, of which Charles G. Cano is president, and it is hoped to stimulate activities in this direction.

The Manufacturer's Committee decided last night to join the National Council for Industrial Safety, and will co-operate with railroads and manufacturers in carrying out the safety first plan. The Manufacturer's Committee already has a standing safety committee consisting of George E. Randolph, William Rutherford and E. E. Burnett.

It was decided at last night's meeting to take up the matter of an Alameda county exhibit at the State Fair in Sacramento with the Alameda County Exposition Commission.

TO TEST WIRELESS FOR STATIC INTERFERENCE

SAN FRANCISCO, July 17.—Under the orders of Robert B. Woolterton, chief wireless inspector for the United States government at this port, all stations under his supervision, beginning at 10 o'clock tonight, will receive a series of messages intended to test the static interferences which have been bothering the Marconi men for a long time. It was at the suggestion of William Henry Eccles, honorable secretary of the Wireless Union for the advancement of science that the tests were ordered.

It is the desire of the wireless experts to learn the cause of the interferences first and then endeavor to banish them with the aid of science.

LUMBERMEN'S FAMILIES UNITED BY NUPTIALS

MARSHFIELD, Ore., July 17.—Members of two prominent families of lumbermen were united by marriage at Coquille last night, when J. Stanley Dollar of San Francisco took as his bride Miss Esther Johnson of Coquille.

The groom is the son of Captain Robert Dollar, the millionaire lumberman and ship owner of San Francisco, and the bride is the daughter of Alfred Johnson, the veteran lumberman of Coos county.

Dollar came here to act for his father, who is trustee of the Johnson Lumber Company on the Coquille river.

WILL SHOW DUPLICATE OF "MIRACLE" PICTURE

Oakland people are to have their first opportunity to see the duplicate of the famous miracle picture, "In the Shadow of the Cross," which has been exhibited in all parts of the world. Charles T. Spradling of Los Angeles will explain how the startling and apparently miraculous effects of the picture are produced by natural means. This exhibition is free to the public at California hall tonight.

TO CLAIM BROTHER'S BODY.

For the purpose of assuming charge of the remains of his brother, M. Rapp, of 1026 Cotton street, East Oakland, left today for Omaha, Neb., where William Rapp was naturally wounded while witnessing a shooting affray between rival gangsters last Tuesday evening. Rapp was one of a party of four killed there.

ALLEGED DESERTION.

Alleging willful desertion, Joe Adelphino Superior Court against George Allen Aldridge, complaining that in April of 1910 he was deserted and that her husband has not since supported her. She asks the custody of two children and alimony.

Travelling Man Recommends Duffy's

MR. CHAS. W. GITTLEMAN

"I have used Duffy's Pure Malt Whiskey as a medicinal tonic since 1906. I had pneumonia and was directed by my family physician to use Duffy's. It did me a great deal of good and ever since it has been used by my family. I am 38 years of age and a commercial traveler. An outdoors a great deal, and find this medicine a wonderful stimulant and good preventive of colds, etc., for which I cheerfully recommend it."—Charles W. Gittleman, 1654 Gates Ave., Brooklyn, N. Y.

Duffy's Pure Malt Whiskey

The merit and honesty of a product that has been before the public for more than half a century cannot be questioned. Its fame has spread the world over; it stands today as a most celebrated and successful medicine. It is a great remedial agent in the treatment of summer colds, pneumonia, and in all stomach troubles.

Duffy's Pure Malt Whiskey is the only whiskey that was taxed by the government as a medicine during the Spanish-American War. Sold by most druggists, grocers and dealers in sealed bottles only, price \$1.00. If you can't procure it, let us know and we will tell you how to obtain it. Write for free doctor's advice and book of recipes for table and sick room. The Duffy Malt Whiskey Co., Rochester, N. Y.

PARDON PRISONER TO MAKE WITNESS

Accomplice in Oregon Land Fraud, Restored to Citizenship, Testifies.

PORTLAND, Ore., July 17.—The fact that Henry J. Harper the Tacoma bar-ber who served thirty days for fraudulent use of the mails, has a full pardon from President Wilson, restoring his civil rights, became public in the United States court yesterday when Harper was on the stand as a witness against W. F. Vinard of Portland and J. W. Logan and E. J. Sellers of Tacoma, accused of the same offense.

Harper was a member of the so-called "Seattle group" of alleged false land in-ventors of which Vinard, Logan and Sellers were alleged to be members. These men the government alleges, used the mails to get persons to buy worthless "locations" within the Oregon & California Railroad land grant in Oregon.

Harper said that he did not know that he had been pardoned, or that a pardon was to be granted him, until last Tues-

SPITE FENCE IS RAZED WITH AXES

San Mateo Women, Club Leaders, Demolish and Burn Offensive Structure.

SAN MATEO, July 17.—Armed with axes, militant women of San Mateo Wednesday night made an attack on a spite fence and after hewing it down built a roaring bonfire with the razed timber.

The attack on the fence was led by Mrs. Edward Corr and Mrs. R. S. Greene, clubwomen and followed on in the "meeting" held by the school trustees.

The fence had been erected by the Ocean View Land Company and blocked off the approach of the Vista Grande school at Daly City. A dispute of several years' standing had existed between the company and the school trustees and a public meeting was called by the board Wednesday night to discuss means of getting rid of the fence.

District Attorney Franklin Stewart was at the meeting and said that the fence, according to law, had to go.

"Why not get axes and chop it down?" asked one woman.

A descent was then made on the fence, and the noise of the demolishing axes attracted a big crowd around the school building.

OPERATION SEPARATES TWO SISTERS

PARIS, July 17.—The two sisters who were born "twin" joined together, back to back, living until in the Lombard region were cut apart yesterday. This difficult operation was performed by Dr. Mignot assisted by Dr. C. W. du Bou-chet, chief surgeon of the American hos-pital.

The most delicate part of the operation was the dissection of the intestines, which at one point were united for a space of an inch and a quarter.

TO REWED WIFE. HUNTS UP TRAVELERS' AID

SAN FRANCISCO, July 17.—Johann Schnabel came up from Honolulu to look for Mary W. Schnabel from whom he was divorced two years ago. He found Mary and asked her to come on and marry him again. She said she would and then Johann started out to find how to get married twice to the same girl. He wound up at the Travelers' Aid Society in the Ferry building.

"Sure," said Mrs. E. W. Givert who aids travelers, "my father is a parson and he is at the hotel."

Then she took the Schnabels to the City Hall, got them their license and stood by while her father married them. Any little thing you need just apply at the Travelers' Aid Society.

ORANGE GROWER FOUND DYING FROM GUN WOUND

PORTERVILLE, Cal., July 17.—F. H. Neumann said to be a member of a wealthy Los Angeles family, was shot of a large orange grove near here was found near Springville a mountain vil-lage east of here yesterday with a bullet hole through his head. At his side was a revolver with which the shot had apparently been fired. His chances for recovery are slight.

Huerta Lays Down His Hand.

It cannot be said with any degree of truth that Victoriano Huerta came from the provisional presidency of Mexico—a position the duties of which he exercised as a dictator, rather than as the chief magistrate of a presumed free republic—with honor. On the contrary, appearances indicate that he abandoned the office with a view to saving his own life, which he knew was forfeit as soon as Carranza and his forces achieved the victory almost within their immediate grasp.

Like Macbeth, who slew his benefactor, Duncan, in a most foul and unnatural manner, Huerta acquired his place by the commission of a brutal murder of a man who had heaped upon him honors and dignities and in addition had trusted him as a loyal friend. It was a diabolical deed, made more so by the element of ingratitude. As a result of this crime Huerta began his career as executive under a handicap, for the nations refused to extend to him that recognition which might otherwise have been accorded. This conduct on the part of the great powers of earth prevented Huerta from obtaining funds necessary to finance his defense and as a consequence one by one his forces have lost battles, his lines have been broken, his troops driven back, until today, from different points, Huerta saw the inevitable hastening. Birnam Wood was approaching Dunsinane and Carranza, Villa and Zapata were menacing him from the north, south and the west. In the dire emergency with which he was brought face to face, Huerta declined, like the Thane of Glamis and Cawdor, to throw before his body his war-like shield and bid defiance to the Macduffs pursuing him, but chose the more ignoble part, that of flight.

He passes from power into obscurity, hated by those who have fought with the single purpose of bringing independence and peace to the populace; he hastens into voluntary exile, despised by the men who stood by him, because they feared to do otherwise while he held the keys to life and death; he retreats to some refuge shorn of all attributes that make for greatness and a place in honorable history, with one exception, his stubbornness. Perhaps on that peg some writer of the future may hang a commendatory sentence. He will not be forgotten, however, for the records of the coming years will preserve his actions for perusal, but while Juarez and Diaz, even, of the old war will be looked upon and revered; while Madero will be recalled as a martyr to freedom; while the men who have died on the gory fields of the revolution succeeding his seizure of the reins of government will be borne in kindly remembrance by the Mexican people, the name of Huerta will be recalled with resentment akin to loathing.

After Huerta, what! Carranza holds the seat of authority. Carranza is no man's fool and the prospects are he will not oppose the advance of Carranza. There is little doubt that an agreement will be made through which all factions will unite for peace. With the establishment of a new government and its recognition by the United States and other powers, Mexico will have an opportunity. Whether the elements now in the ascendancy will demonstrate their entire greatness in remaking the republic remains to be seen. If Villa, Carranza, Zapata and the lesser "generals" in command of the insurrectionary forces can agree the task of reconstruction will be comparatively easy. If, on the other hand, these men quarrel among themselves as to the disposition of honors and spoils, the end is still far from sight, although at this writing it looks as if an amicable adjustment can be made.

Announcement is made that despite the rise in the price of beef east, no such condition will obtain on the coast, due to increased supplies from Idaho, Utah and New Mexico. For all of which let us be duly thankful!

It appears from the dispatches that Chevalier Gunboat Smith of the good old U. S. A. in a friendly bout with Monsieur Carpentier of la belle France, held in deah old Lunnion yesterday, deliberately fouled his Gallic antagonist by kicking him in the bread basket or taking some other unfair advantage. All of which we regard as simply shocking, not alone to our sensibilities, but to the gastronomic apparatus of Monsieur Carpentier, and if this thing occurs again we shall move that such events be stopped. The amenities and proprieties of "sport" must and shall be preserved.

Comes now a German medical man with the statement that the woman of the future will be bald-headed. Oh, well, we don't care; we will not be here to see her.

Just by way of inquiry: Are you registered for the primaries yet?

All same, when the Mexican dictator reigned, notwithstanding the former protest against the presence of American warships, he knew just Huerta go.

With a raisin crop of 100,000 tons this year, Fresno and vicinity ought to have little difficulty in raisin' the money for the necessities and comforts of life.

Anti-Fat Cures Declared Frauds.

Uncle Sam's Bureau of Chemistry, which some time ago got after so-called obesity cures with a sharp stick, has ascertained that the sellers of these concoctions calculated to reduce weight have resumed business again under new methods and is planning a vigorous campaign against these so-called humbugs.

It is related that in many instances the contents of the "cures" were found to be deleterious and dangerous, and warning is being issued to the ample dimensioned to beware of indulging in them lest serious results follow.

While it is said that "no one loves a fat man," it is not fact, for fat men and plump women—women are never fat—are universally loved because of their good nature. Persons with plenty of surplus energy stored up in the shape of fat are the salt of the earth. They are jolly, sleep nights, attend church regularly, pay their just debts and vote the Republican ticket, and thereby qualify themselves to be admired on earth and bidden a glad welcome at the gates of pearl.

With all these attributes, why should any one indulge in nostrums calculated to remove excess flesh? Of course there are exceptions to all rules and second thought prompts one to recall that there have been instances where men and women have become so fat as to get in the way of other people, but the remedy for such a condition lies not in medicine. For example, look at former President Taft, who, by the use of carefully selected foods and exercise, shed some seventy odd pounds in a short time. Taft did not take any anti-fat. He just galumphed himself over a golf course three or four times a day and ate foods lacking starch.

Of course, lots of plump persons will say they are not fixed so they can play golf as did former President Taft. Well, saw a cord of wood a day and split it in lengths to fit the grate or stove. True, this advice will be wasted, because there are so many who want to take the short cut to leanness they will shy at the woodpile and rush to the drug store because it is so much easier. But there is no royal road to exiguity or tenuity, and the person who has a yearning to become attenuated must needs pursue the beaten track.

But what's the use of it all when fat people are contributing most to the gaiety of the world, occupying the most unique positions in

adding to their qualifications the fact that they scatter most of the laughs and smiles along the pathway of life, while the fellow who is all Adam's apple bobbing up and down beneath his chin and button takes everything just as if existence was not a joke? We are all glad this bureau of chemistry has started a war on fat, because if there is anyone dissatisfied with his or her state of corpulence, and wants to change it, let Nature's course, not the artificial.

A SAFE RETREAT

—WASHINGTON EVENING STAR.

County Official's Good Record.

The new state law which puts county officials and judges of the various courts of the state on a non-partisan basis compels candidates incumbent, seeking re-election, to run on the records they have made, and new ones to stand on their manifest abilities and their merits, is a good one. It takes from the realm of politics many places where politics are not qualifications and gives the voters a chance to determine between men and women as to their fitness.

County Treasurer M. J. Kelly has filled the position many years. During his incumbency he has never been criticised for any action, but on the other hand has been commended, both by public officials and private citizens. He has given special attention to the taxpayers of Alameda County and their necessities and all who have had dealings with his office have been shown uniform consideration. As a public officer Mr. Kelly has held his own with all others and his record in office is a good one.

One of the tributes to his ability was paid in a report made by the Grand Jury of this county in December, 1913, wherein that body stated in confirmation of the integrity of the Treasurer's accounts that "the general consideration of the records of the Treasurer's office has evidenced a most excellent and efficient condition."

Mr. Kelly is a candidate for re-election and with the facts of the past recorded in his favor will doubtless be selected at the primary to succeed himself.

Tulare County papers are jubilant over the increase of \$1,000,000 in the assessment roll this year. A million is something substantial to rejoice over.

"This is the high tide of vacation season in California!" exclaims the Pasadena Star, with manifest exultation. True, but not for all. Think of the perspiring candidates engaged in stumping the state.

"His Death Mask Will Be Our Only Heritage," sadly remarks the San Diego Tribune, alluding to Secretary Bryan's refusal to allow a sculptor to close his, the secretary's, mouth long enough to take a life mask. Oh, cheer up! Perhaps before Bill dies he will talk three or four of those Chautauqua addresses in a phonograph.

Dead Girl Restored to Life.

Reports from Rome say Dr. Vannucci, chief surgeon at Pistoia Hospital, literally brought back to life a girl who was to all intents dead. The patient was being operated upon for a needle in the mitral valve and while the surgeon was holding her hand pulsation ceased. He and his fellow physicians agreed that she was dead. Vannucci then started massaging the organ, with the result that it was gradually stimulated into activity and the young woman will doubtless recover.

This case, together with others, raises the question: What is Death? At what period after the cessation of animal activity does the soul leave the body? This girl was dead; dead as Pharaoh, and had not the doctor intervened would have remained dead for all eternity. Artificial means restored muscular action and she lived again. Persons have been taken from the water drowned, dead as ever anyone was dead, yet artificial respiration and certain muscular exercises have restored them. Others have been dragged from mines dead from gas, yet the use of pulmotors has revived them. What are we to infer from all this? That the soul, the intelligence does not immediately forsake the mortal part until assured there is no hope of revivification? These questions are pertinent, for we have been taught that at the moment of death the immortal part at once frees itself, glad of release, to wing its way to another world. Will some scientist please enlighten us? Does the soul remain with the body until the life blood curdles and rigor mortis sets in, or is there an intermediate period, determined by the spirit itself?

Twenty Years Ago Today

One of the most pleasurable social events was the triple reception which took place in the chapel of the First Presbyterian church. The occasion was in honor of three clergymen and their respective wives, Rev. and Mrs. Robert Corie, Rev. and Mrs. M. F. Smith and Rev. and Mrs. Campbell Coyle. In so far as Rev. Robert Corie and his wife are concerned, the event was a welcome home from their trip to Honolulu; as far as Rev. Campbell Coyle was concerned it was a welcome to the position of assistant pastor of the church, and, as regards Rev. and Mrs. F. M. Smith, it was a farewell reception prior to their departure for the southern part of the state after a successful term of assistant pastor on the part of Mr. Smith.

The policy of the railroad company is well understood in regard to the return of the strikers to their old position. The order has gone forth that none of the leaders shall be taken back. The order extends to all the departments of the company and there will be no retreat.

Assistant Secretary of the Treasury Hamlin has come here to report on the Oakland harbor and other matters.

President Keller of the board of trade wrote him a letter and arranged a conference. A committee consisting of M. J. Keller, Edson F. Adams and Victor H. Metcalf called on Mr. Hamlin and urged him to recommend the passage of the English bill making Oakland a port of entry. Mr. Hamlin thought that would be unnecessary and suggested that the city could be made a sub-port and have it brought under the immediate transportation act.

FAME'S PATHWAY

Thomas Hade, 35 years major-domo in the Astor family has been retired and, according to report, pensioned for life by Vincent Astor. He was employed by the late Mr. and Mrs. William Astor. There is probably no one whose features are more familiar to the society people of Europe and America and some dignitaries than Thomas Hade, because of long services in this potent family. His affable and kind manner made him a general favorite in Newport, as well as in New York, and many other places where the Astor family resided.

William Walker Smith, United States consul general at Santo Domingo, to the amazement of the Waldorf-Astoria employees in New York, came down from his room on the seventh floor with a big Belgian police dog, which was given to him when he was in Europe. It is said to be the first time that a dog of this size has been above the first floor of the hotel with the consent of

planned to everybody that Mr. Smith's police hound had a room all to himself in the Waldorf. That's another thing which the dog can boast about in later years.

"That dog," said Mr. Smith, "saved me from drowning, and he intimated the dog had a right to the best there is—so said that the animal was a wonder and that he was very, very fond of him."

ANCIENT TIAHUANACU

A city so old that even the legendary lore of the Incas, who traced an unbroken line of kings back to the eleventh century, is dumb concerning the people who built it, a city which a thousand years ago had been so long dead that even song, story and tradition had forgotten every vestige of its history when Columbus discovered the "New World." Such is the ancient city of Tiahuanacu, whose ruins are crumbling surely, but not slowly, into dust not far from the southern shore of Lake Titicaca, in Bolivia.

"The little present-day village of Tiahuanacu is located on the railroad which connects La Paz, the modern capital of Bolivia, with the port of Guayaquil on Lake Titicaca, and may be reached in about two hours from the former place. The ruins of ancient Tiahuanacu covering an area of about a square mile, are not over a half mile from the village," writes Edward Allen in the Monthly Bulletin of the Pan American Union.

"A traveler stopping in the little town, would be astonished to find the number of beautiful cut-stones built into parts of adobe huts of the most primitive character, and sometimes forming portions of a splendid patio. A doorway to a dilapidated thatched-roof hut, may have a lintel or jamb formed by an artistically carved stone. In the walls of the little Catholic church and in those including its yard and even in the paving may be seen these smooth stones."

stone crosses in front of the church is made up of them while on either side of the gateway to the inclosure stands a carved stone idol whose head is carved in the ravages of time, still show the artistic skill of the ancient sculptors who wrought them.

Thus the ruins of the ancient city have furnished much of the material to build the village of today, and while the strict utilitarian may find no fault with this work of destroying the artistic mon-

uments of a hoary antiquity to cater to present needs, to the student of archaeology it seems almost like desecration. The Bolivian government has recently enacted a law which forbids the carrying off or willful destruction of that portion of the ruins which vandal hands have left intact.

The ruins themselves include the remnants of temples, palaces and great structures of what once must have been a large and densely populated city. Not a vestige remains of the dwellings and less pretentious houses in which this population must have lived. These were naturally of a more temporary character and the relentless agents of destruction, working through countless centuries, have obliterated all traces.

Geologists hold that in the Jurassic and even in the Cretaceous period there were no Andes and that through a gradual upheaval they have been formed in more recent geological times. The bones of a mastodon have been discovered in Bolivia at an altitude of 13,000

could not have existed at such an elevation. Skeletons of gigantic anteaters have been found in the deserts of Tiahuanacu, and these could only have existed in regions of arboreal vegetation. These, and other geological facts, support the theory that the ancient city of Tiahuanacu existed when the Andes were much lower than at present perhaps when the cave man of Britain was fighting for his life with cave bear wild boar.

WHITE OAKS WIN DRILL CONTEST

Oakland and San Francisco Teams Carry Off Prizes at Denver Meeting.

San Francisco and Oakland are the winners at the drill contest of the Denver grand lodge session, of the Elks. The San Francisco men also captured a prize for the best appearance in the parade, when a procession, five miles long, in which 7500 Elks marched, wound through the streets.

The drill contest was held in the baseball park of Denver, with a large crowd watching the evolutions. Five crack drill teams were on the ground. San Francisco came off with the first prize, and Oakland's White Oaks with the second.

Raymond Benjamin, the newly-elected grand exalted ruler, was installed yesterday. He gave his installation address, making a plea for co-operation in carrying out the work of the grand lodge.

As he was led to the platform the 1200 delegates present rose to their feet and in ensemble gave three rousing cheers for Benjamin.

INVITED TO EXPOSITION.

An invitation was extended to the grand lodge of Elks and all individual members to visit the Panama-Pacific International Exposition at San Francisco during the convention at Los Angeles.

The invitation was presented by Fred H. Stanley, of San Francisco, on behalf of San Francisco lodge. The exposition management sent word that a special day would be set aside to be known as Elks' Day. The invitation was roundly applauded.

The local Elks boarded their special train for home early today. A stop of several hours will be made at Salt Lake and from there the party will go through Yellowstone Park.

REVISION OF RITUAL.

After voting a proposition to appoint a commission to codify the ritual, the grand lodge passed a resolution empowering the incoming grand exalted ruler, Raymond Benjamin of Napa, Cal., to appoint two grand lodge members to act with him on a committee to report upon a revision of the ritual two years hence. Previously the body authorized the use of the goat at initiation.

Prize-winners announced yesterday were as follows:

Best appearance in line—Detroit, first; Rochester, second; San Francisco, third. Unique uniform—Cheyenne, Wyo.

First: Novata, Okla., second: Utah third. Most attractive (first) Utah, first; Arkansas, second; Cheyenne, third.

Greatest number in parade—Cheyenne, first; Great Falls, Mont., second; Portland, Kas., third.

The fastest member prize went to F. J. Gignac, Franklin, N. H.

The shortest member, W. R. Faulkner, Tazewell, Va.

Tallest member, Ross W. Bryant, Rochester, N. Y.

Thinnest member, J. C. McNamara, Omaha.

Oldest Elk in parade, Thomas Shiebold, Loveland, Col.

ABBOTT DEFENDS WOMAN'S ATTACK

Heliogorus Declares Gregory Rasputin Merited Dagger Wound.

ST. PETERSBURG, July 16.—Heliogorus, famous abbot of Tzaritsyn, who was banished from St. Petersburg because of his association with Gregory Rasputin, the mystic lay monk and advisor of the Czar, has again come before the public. Rasputin is now recovering from a dagger wound inflicted by a woman said to be a fanatical follower of Heliogorus.

The abbot now came forward with a defense of the woman's deed.

The woman believed, Heliogorus asserts, that Rasputin merited the treatment Elijah meted out to the false prophets. With another woman she had determined to kill Rasputin last year but he was warned and escaped. She then vowed to God that sooner or later she would perform what she believed to be a holy duty.

NEW YORK DELEGATES WILL BOOST FOR FAIR

SAN FRANCISCO, July 17.—For the third time in a year there is a delegation representing the New York Exposition Commission in San Francisco, making provision for the building and exhibits that are to be installed on behalf of the Empire State.

J. R. Yale, the chairman of the New York Commission; D. L. Ryan, the secretary, and Charles E. Meyer, the architect who planned the building, are guests at the St. Francis Hotel, and they wish it made plain that the participation by New York is intended fully to reflect the power and glory of the "Empire State."

Three contracts will be let while the New York delegation remains in San Francisco. Some of the interior schemes of decoration for the New York building will be altered, provision will be made for a scheme of interior and exterior lighting and the landscape plan will be adopted.

Architect Meyer stated that the New York State building, which is to be a gathering place for visitors from the state, will be finished by October 15, according to the specifications, and that the equipment and furnishing would be ready by January 1, 1915.

Doctor's Boyish Face Reveals Skin Renewer

I heard the other day the story of the physician with an admirable skin that all his women patients asked his secret. He told one, who generously told others, that, knowing the remarkable absorbent property of ordinary mercurized wax, he concluded this substance would make an excellent complexion renewer and preserver. Knowing the wax could do no injury, he began using it after shaving. He soon observed that the skin, without colorless cuticle was being gradually absorbed and replaced by younger, healthier skin. "This was the simple secret of the silver-haired doctor with the boyish face."

women everywhere use mercurized wax applying it night like cold cream, washing it off morning and did not end until the dusk and the three little doves and some few thousand of their relatives had vanished under a near-thousand greedy throats.

This camp stew is an annual affair, held always on the day after the opening of the dove season. The first one was held thirty years ago, and it is an event now so popular among the sports-

HUNDREDS MEET FOR DOVE STEW

Big Annual Feast and Hunt Is Held at Grass Valley.

GRASS VALLEY, July 17.—Three thousand little nursery-rhyme doves who put on their gloves and then went out to dine are possible among the diners of Nevada county now.

In recollection of the great dove hunt and camp stew which began at daylight yesterday morning and did not end until the dusk and the three little doves and some few thousand of their relatives had vanished under a near-thousand greedy throats.

This camp stew is an annual affair, held always on the day after the opening of the dove season. The first one was held thirty years ago, and it is an event now so popular among the sports-

men of the whole coast that the Grass Valley sportsman club is obliged to make it strictly invitational and to keep close and discriminative watch over the invitations. There were guests from San Francisco, Sacramento, Stockton, Reno, Marysville, Auburn; in fact, from every community within a day's travel of this city.

The day opened with a breakfast at the camp, which was held at Dikeman's grove, in Penn valley, eight miles from town. The sportsmen began to gather shortly after 5 o'clock. By 6 o'clock J. D. Tupper and Joseph Abrahams, the cooks, were compelled to call in all their assistants to help in the serving.

Breakfast was not over until 10 o'clock. By that time the Grass Valley hosts and their guests had gathered to the number of nearly one thousand. Frank Jordan came up from Sacramento and hebbled with Joe V. Snyder of Grass Valley. There were county politicians, too, but there was no politics.

The big stew was served at 4 o'clock and was cooked by "Uncle" Morgan, who has had the same job for many years. Yesterday, however, he had to employ a bigger force of assistants than ever before, and nearly all of the club members donned caps and aprons and made themselves assistant chefs and waiters.

Duke of San Francisco, who talked on the same subject and who is attorney for the Fish and Game Commission; Ray Hayes of the Nevada City Sportsman's Club, District Attorney F. L. Arbogast of Nevada county and former Mayor George W. Hall of Marysville.

The feasting was over by 5 o'clock and the campsite was deserted an hour later.

BOATHOUSE SOON TO BE OPEN TO PUBLIC

The new municipal boathouse adjoining the pumping station on the west shore of Lake Merritt is to soon be thrown open to the public, applications are being received at the office of the recreation department, city hall annex, for reservation of boat lockers. The board of playground directors announces that the applications will be considered in the order they are received.

CHURCH MERGER IS RECOMMENDED

Methodist Protestant and the United Brethren Denominations to Consolidate.

COLUMBUS, Ohio, July 17.—Delegates to the general conference of the Methodist Protestant Church of America, at their closing session here last night accepted the report of a special committee recommending a merger with the United Brethren Church of America. The ratification of the report practically effected the union of the two churches which would affect about 500,000 persons. The United Protestant Church is the name which has been selected for the new organization. A commission was appointed as follows: Dr. T. E. Davis, Pittsburgh, Pa.; Dr. C. D. Stinkerson, New York; Dr. V. W. Morrison, West Virginia; Dr. T. L. Garrison, Texas; Dr. W. H. Bentley, Ohio; Dr. C. E. Sheppard, Ohio; Dr. D. S.

Stephens, Oklahoma; Dr. J. S. Bowers, Maryland; R. T. Pickens, North Carolina; J. F. Howe, Missouri; J. E. Peters, Iowa; Horace Link, Illinois; A. T. Shuman, Arkansas; A. T. Meritman, Indiana and Ely D. Miller, Michigan.

N. Y. NATIONAL GUARD ENCAMP WITH REGULARS

TOBETHANNA, Pa., July 17.—Twelve batteries of field artillery of the New York state national guard joined the United States regulars here today in a ten-day encampment. The regulars marched from Washington to the camp here. The federal government furnishes all equipment, field pieces, etc., for the use of the New Yorkers while they are here, enabling them to get better training than could have been provided through the appropriation of the state legislature.

YOSEMITE PARK PERMIT RACED IN CONGRESS

WASHINGTON, July 17.—Representative Baker's bill allowing construction of a hotel in Yosemite National Park was passed yesterday by the Senate. The bill has passed the House and will be come law with the President's signature. Senator Worke has charge of the measure in the Senate. In urging passage the Senate Works declared Yosemite is the only national park without proper

hotel facilities, and a hotel there is urgently needed because of the thousands of visitors to the Panama-Pacific International Exposition who will visit the park.

FORMER COMMANDER OF NAVY YARD PASSES AWAY

WALTON, N. H., July 17.—Rear Admiral Henry B. Robeson, U. S. N., retired, formerly commander of the Navy Yard at Portsmouth, N. H., died last night. He was 32 years old.

Is Child of 'Nature' Yet Lives in the City

ROSE ELLA KAHN.
—Webster Photo.

In all the outdoor pastimes that appeal to the child, little Rose Ella Kahn, six-year-old daughter of Mr. and Mrs. Frederick Kahn of this city, is interested.

She takes part in open-air exercises and watches her older playmates engage in others.

Rose Ella has many friends. She is a pupil in the public school and of Miss Merriman's school.

PLAYGROUND IS SUMMER CENTER

500 Children Disport Daily at Mosswood During Vacation.

On an average of 500 boys and girls have daily attended Mosswood park playground this summer.

Since the Oakland schools closed last June the Oakland playgrounds have been the favorite resorts for children. From the early morning hours until 6 o'clock in the evening, the gates of the recreation centers and the playgrounds are open. The grounds are under supervision.

The vacation schedule will be brought to a close on July 29. On the following day the public schools will re-open for the fall semester.

Tennis, baseball, football, volleyball, and folk-dancing have proved the leading sports for the little folk. Tennis tournaments were conducted in a number of the playgrounds.

The last of the series of baseball games in the indoor league of the Mosswood park playground was played on Wednesday evening and at the close of the contest a dinner was served at the Mosswood tea house to the winners.

There were four teams seated at the table. Supervisor Beckett of the boys' department of the grounds, presided.

Under the chaperonage of Miss Louise Wade, supervisor of the girls' work of Mosswood, about ten girls will have a lunch ride on San Francisco bay on Sunday morning. The young people will leave First street and Broadway at 8 o'clock for an all-day cruise. They will carry their lunches.

THEY WORE RAGS, BUT AS BADGES OF HONOR

One of the innovations of this year's boys' camp of the Y. M. C. A. was the organization of two clubs known as the "Blue Rag" and the "Red Rag" societies.

The members of these societies were chosen by a secret committee of leaders on a basis of deportment and character. The members of the "Blue Rag Society" wore blue bandanas and the members of the "Red Rag Society" wore red bandanas. The honor of wearing a "rag" was something that the boys earnestly sought. Forty-nine boys were in the "rag" as marks of merit.

The eight members of the "Red Rag Society" were John Jay, Elmer, James Buchanan, Vernon, Samuel, Ernest, Arthur, Mortimer, Smith, Fred, Neilson, Pete, Edmund and Edmund de Prester.

The following were elected members of the "Blue Rag Society": Spencer, Cushing, James, Richard, John, Lee, Edwin, MacDonald, Kenneth, Taylor, Warren, Innes, Vernon, Samuel, Henry, Galt, Ernest, Arnold, Douglas, Campbell, Fred, Starr, Lucius, Fuller, Paul, Stark, weather, Jack, Worthington, Elmo, Cienfuegos, Edward, Deanehorn, Mortimer, Smith, Willis, Laddell, Ray, Skelton, Elmer, H. ADVISERS WILL MAKE AUDITORIUM REPORT

Only a few contracts are still to be let for the completion of the Municipal Auditorium and the advisory commission has decided to have prepared a careful report of the total cost of the building. This will be done by the finance committee of the auditorium commission, with the assistance of an expert accountant.

Blood Risings Not Sign of Health

Boils are Caused by Sluggish
and Impure Blood

Look Out for Volcano Effects

When there are swellings, gatherings or risings of the skin it is a sure sign that the blood needs help. It needs the cleansing that can be had only by the famous blood purifier S. S. S. Any eruption of the skin shows the body is retaining impurities, and either continues to circulate and impoverish the blood or are deposited here and there in the form of abscesses or surface risings and eruptions.

spring and summer to withstand those habits that leave the system tired out. Get a bottle of S. S. S. today of any druggist. Give your blood a good bath. It will cause your liver to convert impurities, your lungs to burn them, your kidneys to excrete them and your skin to carry them off thus leaving your entire system fresh and clean to revive health. FLORIDA DAY AT EXPOSITION SET

P. P. & E. Officers Arrange Big
Program of Ground Break-
ing Ceremonies.

SAN FRANCISCO, July 17.—Invitations for the ground-breaking ceremonies for the Florida state building at the Panama-Pacific International Exposition and for a luncheon to be tendered to the members of the Florida commission by the president and directors of the exposition, were sent out yesterday. On the date set, Tuesday, July 21, there will be a review of the regular troops at Fort Winfield Scott.

The members of the commission are J. P. Felt of Eustis, a prominent orange grower and packer; W. N. Conoley, who is secretary of the Board of Trade of

producer of Haines City.

Two specimens of giant cactus, said to be the largest of the desert plants ever moved, have been brought from Arizona by the Santa Fe railroad and were yesterday put in place at the entrance to the Hoppi Indian Village which forms a part of the \$350,000 reproduction of the Grand Canyon of Arizona being built by the Santa Fe on the Zone at the Panama-Pacific International Exposition.

Florida officials have been notified informally by a cablegram received yesterday from Madrid, that Spain, through the efforts of its minister, don John Fisher in their campaign for Spanish participation, has decided to be present at the Panama-Pacific International Exposition in San Francisco in 1915. Fernando, who was Spanish commissioner-general to the Midwinter Fair, and Fisher went to Spain last April.

Elsewhere in the Panama-Pacific International Eggs-Laying Contest, conducted by the live stock department of the exposition, have been received from Edward Cam, of Houghton, England, Frank Toulmi of Ingel, Lancs., England and from the Utiliti Poultry Farm at Hatchington, Preston, England, of which Alfred Parkinson is the owner. The contest opens November 1, 1914, and continues for twelve full months.

Announcement has been made that the International Poultry Exposition which has been held for the past three years at Atlantic City, on the famous Board Walk, will be brought to San Francisco in 1915 and will be located on the grounds of the Live Stock Department of the Panama-Pacific International Exposition.

R. Carwood, a prominent Ansoria Goat breeder of South Africa will make a large exhibit of Mohair and Vohair products at the Panama-Pacific International Exposition, according to a statement issued by Alva McDonald of the Ansoria Goat Breeders' Association. A fine exhibit will also be shown from Australia as well.

TRIED TO POISON CHILDREN, CHARGE

Los Angeles Woman Accused of Attempt on Lives of Neighbor's Tots.

LOS ANGELES, July 17.—Mrs. Nettie Frow, herself a mother, is under arrest today charged with putting poison in food with felonious intent, the first time in the history of California's jurisprudence such a charge has been filed.

The three children of M. A. Blanchard, neighbor of Mrs. Frow, are said by the police to have been the proposed victims of the poison, which was in sufficient amount to kill, and put in apples, which were found in the Blanchard children's play yard by the father. Mrs. Frow was released on \$2500 bail.

For three months there has been turmoil in the neighborhood where the principle live because of numerous complaints against the pranks of the children made to the police by Mrs. Frow.

CHURCH OR "MOVIES" IS ELECTION ISSUE

NILES, O., July 17.—Do moving pictures desecrate the Sabbath?

This question, a momentous one in this city, is today the center of a campaign that will find its climax in the November elections. The people will vote on the question. Church folk, backed by Councilman Sidney Brobst, are behind the move to close the Sabbath "movies."

The glass workers' union, backed by working people, want to retain what they say is their only Sunday recreation. Thomas Finan, leader of the "pro-movie" element said today:

"The picture show is the poor folks' recreation. It keeps young persons away from dark streets and parks at night. The decent movie is just as moral as autograph and Niles theaters show decent movies."

"The moving pictures help to destroy the Sabbath," said Alderman Brobst, "and we are going to oust them if it costs me my job."

INTENSE ITCHING AND BURNING

Of Eczema. Like Hives All Over
Body. Also On Face and Ear. Lost
Much Sleep. Cuticura Soap and
Ointment Healed Completely.

617 N. Gibbs St., Pomona, Cal.—"My eczema began when I was five years old. It started like hives all over my body and later it troubled me principally on my face and left ear. It was very rough and red and itching and burning were so intense that I lost much sleep."

"I tried several kinds of salves and blood medicines but to no avail. I had been bothered with eczema for over eight years. Then I bought two cakes of Cuticura Soap and a box of Cuticura Ointment. When I used them my cure was complete." (Signed) Miss Mildred Sweet, Mar. 6, 1914.

Samples Free by Mail

For pimples and blackheads the following is a most effective and economical treatment: Gently rub the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water, and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation and clogging of the pores, the common cause of pimples, blackheads and other unwholesome conditions of the skin. Although Cuticura Soap (25c) and Cuticura Ointment (50c) are sold by druggists everywhere, a sample of each with 32-p. Skin Book will be sent free upon request. Address "Cuticura, Dept. T, Boston."

WHITMAN DENIES CHARGES OF T. R.

Refutes Statement That He Wrote Letter of Opposition to Barnes.

NEW YORK, July 17.—District Attorney Charles S. Whitman last night made reply to the statement issued by Theodore Roosevelt Monday night charging that Whitman had caused advances to be made looking to the support of the district attorney for the governorship which failed, according to Colonel Roosevelt, largely because Whitman failed to declare his opposition to William Barnes Republican state chairman, as it had been represented he would.

Whitman, in his statement, denies that he ever wrote or authorized the draft of a letter declaring himself opposed to Barnes as much as to Charles F. Murphy, leader of Tammany Hall. "It is draft, Colonel Roosevelt stated, had been sent to him by Charles S. Duell Jr., who had organized a non-partisan Whitman league."

FORM ASSOCIATION TO AID SOUTHERN FARMERS

LAKE CHARLES, Pa., July 17.—To strengthen the farmer and truck grower in the weakest point in his organization, the selling end, the Lake Charles Business Men's Association has been organized on original lines. The merchants of the city have incorporated a mutual company, hired a manager and have announced that in the future they will accept and pay cash down at the next New Orleans prices for all truck and produce brought to the association warehouse.

"The trouble with our farmers," declared John Marshall, publisher of the Lake Charles Times and a leader in the movement, "was that they had no selling end to their business. They had good land, were well trained farmers and raised good stuff but from the minute they took it off their place and put it in their wagons they were helpless. There were hundreds of consumers who without their skill and time were willing to pay for it and there were hundreds of farmers about here wanted to sell. But they couldn't get together. Our organization will see to this. We pay the farmer 10c for his stuff. That's what he needs; worse than anything else. Then our agents in New Orleans get it on the big southern and eastern markets for us and we get our money back. We can afford to wait for our returns and lots of times the farmer cannot and as a result takes any old price or dumps his stuff on the local market at a big loss. So far the work of the association has been remarkably successful."

MONTANA MAKES FAIR BUILDING APPROPRIATION

BUTTE, Mont., July 17.—At a meeting here of the Montana commission appointed by Governor Stewart to arrange for Montana exhibits at the Panama-Pacific and San Diego exhibitions, it was voted last night to appropriate \$10,000 for a building at the San Francisco exposition.

OREGONIANS WILL MEET TO HULU JOINT STATE SOCIETY, HOSTS BOND CAMPAIGN

Reception to Have Fine Features
Affiliation for 1915 Is Urged

Loyal Oregonians who have settled on the Pacific Coast will be guests this evening at a reception in the Hotel Oakland given by the Oregon State Society. Miss Lillian Veatch, who raised the huge flag

pole, the largest in the world, at the exposition grounds, will be one of the principal speakers this evening and will wear the beautiful patriotic costume she wore at the fair ground ceremony.

Films showing the 1914 Rose Festival in Portland have been sent by the Portland Rose Festival Association and these, together with films showing the progress of the work on the Panama canal and the exposition grounds will be presented by the publicity department of the Panama Exposition.

Social and other events in which Oregonians will participate at the fair will be largely superintended by the Oregon State Society, and it has been specially requested that Oregonians affiliate with this organization in the greeting of their northern friends in 1915.

Mrs. George K. Rogers is chairman of the membership committee.

MISS LILLIAN VEATCH.

GOOD FELLOWSHIP PICNIC AWAITED

Roos. Bros.-Heeseman Employees Arranging Great Carnival of Sports.

Great interest is being manifested in the Roos. Bros.-Heeseman's big store over the forthcoming picnic of the Good Fellowship Club, which is to be held at Fernbrook Park Sunday, the 19th. Arrangements have been made for a carnival of sports, and an orchestra will accompany them to furnish music for dancing, as the park is equipped with one of the best dancing pavilions in the west.

The Good Fellowship Club is an organization devoted to the welfare of the many employees of this store and is very active along social lines. Practically every employee of the Oakland and Berkeley stores will attend and many will be accompanied by their outside friends. The San Francisco store will also be represented by a large delegation. They have chartered a special train on the Southern Pacific, which will leave First and Broadway at 9:30 a. m., stopping at East Oakland, Fruitvale and Hayward. The return train will leave Fernbrook at 7 p. m., thus giving practically a whole day's stay in the beautiful Niles Canyon. Tickets may be secured at the Thirtieth and Washington street store.

ENLIST FARMERS IN STOCKTON WAR

Merchants' Association Issues Statement in Fight for "Open Shop."

STOCKTON, Cal., July 17.—Efforts to enlist the co-operation of farmers are being made by the Merchants', Manufacturers' and Employers' Association, which on July 8 declared that it would no longer recognize unions and that Stockton must be an "open shop" town.

"We are going to win and are winning, and we intend getting the farmers to join with us," reads a signed statement put out by the association today. "We shall get all the farmers in the vicinity."

RAILROADS FORMALLY REQUEST MEDIATION

CHICAGO, July 17.—Formal request for government mediation was made today by the "managers" committee of the 55 western railroads, 55,000 of whose employees threaten to strike. Representatives of the men refused yesterday to join in the request for mediation.

The managers, in a letter notifying the men that they had requested mediation, had denied that it was necessary. The railroads refused to accept the recommendation of previous government mediators.

RAPS ADVISORY COMMISSION PLAN

Bacous Criticizes Idea When Port Matter Comes Up Before Him.

Government by appointive advisory commissions came in for mild criticism from Commissioner of Streets W. J. Bacous today when the ordinance to create a port commission was before the city council for its second reading. Bacous asked why the commissioners should handle the affairs of the departments, instead of calling in various commissioners created by special ordinances to tell them what to do.

Bacous was absent yesterday when the ordinance was introduced. This morning he wanted to know the purpose of a port commission, and also demanded whether it would occasion additional expense.

"The commission will have no legal powers," explained Mayor Mott. "It cannot do anything, it can only advise."

"But the Auditorium Advisory Commission has asked for an expert accountant, and that means expense," said Bacous. "And what good are the outside commissions? Can't we get the advice of men interested in public affairs without creating a lot of commissions to tell us what to do?"

"If the expert accountant and the auditorium commission can save us from such conditions as the increase in the cost of the auditorium of 100 per cent over the original estimates, I think they are worth having," said Turner.

"Well, this port commission won't cost a cent," explained Mayor Mott. "I think it's a good thing."

Bacous consented to the second reading of the bill.

24 FEET OF NAMES ON CALIFORNIA BALLOT

SACRAMENTO, July 17.—California citizens voting at the November general election will have to crepe with a monster ballot which, according to tests made by Secretary of State Jordan, will take them on an average of 15 minutes apiece to mark.

There will be about 24 feet of names, proposed constitutional amendments, initiative and referendum measures and other propositions to be marked, and the ballot will be about two feet long by four feet wide, divided into 12 columns.

MASONS COMMEMORATE 100 YEARS OF PEACE

Conference of the Sacramento Commerce Chamber Decides on Organization.

A conference at the Sacramento Chamber of Commerce yesterday to consider the various bond propositions to be presented to the voters of California at the fall election, decided to make a joint campaign for all the bonds and to form a permanent organization for that purpose. The alternative suggestion was that a campaign should be made independently for each bond issue.

OAKLAND INTERESTS REPRESENTED

At the meeting yesterday there were a number of bankers, business men and representatives of commercial organizations present from Oakland, Sacramento, San Francisco and San Diego.

The following are the bond propositions.

San Francisco harbor.....\$10,000,000
Capitol extension, Sacramento. 5,000,000

University of California buildings.....1,800,000
Los Angeles State building.....1,200,000
State office building, San Francisco Civic Center.....1,000,000

Total.....\$17,000,000

The proposed San Francisco harbor bond issue is to be a charge against the revenue received by the commission which are a tax upon commerce passing through that port.

The capitol extension bonds and the state fair bonds were authorized by the last legislature, also the San Francisco state building bonds for the San Francisco civic center. The proposed issue for the State University and for the Los Angeles state office building were placed on the ballot by initiative petition. In addition to these propositions there is one to authorize Alameda county to issue a million dollars in bonds for the Panama-Pacific Exposition.

There was considerable discussion as to whether a campaign should be made independently for each issue or whether a joint campaign should be made by all the parties interested to put the entire issue over.

The meeting was presided over by George W. Peltier, a Sacramento banker, who stated that the localities interested should get together, as no one city could carry its own proposition on its merits.

An address was made by John F. Neelan of the State Board of Control upon the needs of the state for additional office space.

Ralph P. Merritt of the university spoke of the needs of that institution, and there were addressed by Robert Newton Lynch, F. J. Koster of San Francisco, Charles S. Glen, Angus of Sacramento and others.

DENISON MAKES SUGGESTION.

A. A. Denison of the Oakland Chamber of Commerce suggested that each issue should stand on its own merits; that the Oakland Chamber of Commerce had endorsed the Sacramento capitol extension bonds and the state fair improvement bonds and would probably regard with favor the issue of bonds for the new buildings of the State University. The Los Angeles and San Francisco bond issues were involved with a campaign which those cities are making on county division and might encounter special opposition for this reason.

After some discussion it was decided to make a joint campaign for all the bonds and to form a permanent organization for that purpose.

The call for the meeting also included a discussion of the proposed annexation amendment across county lines proposed by Los Angeles and San Francisco. Upon this matter the Sacramento Chamber of Commerce had already gone on record as opposing the amendment in its present form, as special in its application to San Francisco and Los Angeles barring all other cities. As the discussion did far to develop considerable animosity a movement to lay the matter over the table was carried and the conference adjourned.

MISTAKE CAUSES ASPHYXIATION.

SAN FRANCISCO, July 17.—C. Stenbeck, a sailor, 45 years old, was found dead at 494 Bryant street as the result of asphyxiation.

Deputy Coroner Gavan showed that he had evidently mistaken the gas key for the electric light switch and had turned it on by mistake.

HAD NO SHARE, HE SAYS IN 'MASTERS AND SLAVES'

SAN FRANCISCO, July 17.—Fred Scheuten of this city today swore to a warrant against C. H. Wunderlich, author of "Masters and Slaves," charging the obtaining of money under false pretenses. Scheuten told Judge Shortall that he had bought a half interest in the play for \$1500 and that after paying over the coin he discovered that Wunderlich had already disposed of a third interest to J. J. Bixby, a Richmond milkman for \$600, and a third interest to Paul L. Cook, an employee of the Southern Pacific, the remaining third having been disposed of to a woman whose identity he does not know. He wants Wunderlich arrested and is anxious to recover his share.

LATEST NEWS FROM RICHMOND

BACK FROM INDIA AFTER 20 YEARS

Mrs. Ada Lee, Missionary, Here
to Place Sons in California
Schools.

RICHMOND, July 17.—Mrs. Ada Lee and sons Frank and Albert arrived here yesterday afternoon, after a seven weeks' passage from Calcutta, India on the Pacific Mail liner Nile. The big vessel docked in San Francisco at 11 o'clock in the morning and the visitors were met by Mr. J. J. Conroy.

This is the second time Mrs. Lee, who, with her husband, Rev. Lee, conducted the Lee Memorial Mission in Calcutta, has visited the United States in twenty years. The trip was made for the purpose of placing her sons, Frank and Albert, 12 and 15 years of age, in California schools. Rev. and Mrs. Lee were among the first American missionaries in India. Rev. Lee visited the place in 1872 and in 1875 was followed by Mrs. Lee. Shortly after this the Lee Memorial Mission was founded. From a mere bungalow it has grown into an institution of 230 girls and 50 boys taught by five women and two men missionaries of the United States. There are thirteen day schools with 600 pupils being conducted under the auspices of the Lee Mission. The teachers are men and women natives, converted through the means of the mission. "Conditions in Calcutta, as well as throughout practically all of India have improved wonderfully in the past years," said Mrs. Lee yesterday afternoon. "When we first went there they did not give the girls any education whatever. Now there are almost as many girls in the schools as boys. The girls and boys are bright and intelligent, but not any more so than our boys and girls in America. Following the move of the American women of establishing playgrounds, arrangements are being made to place one of these recreating centers in Calcutta. It will be the first, I believe, in all of India. The innovation is proving most attractive to the people and I expect that the move will become almost as general in that section as in our own United States." According to Mrs. Lee, the child wife still exists in the country. A number of child wives, five and six years old, are attending the school. There are a number of child widows in the mission, many but seven and eight years of age. Mrs. Lee and her sons will remain here for several days and will then go to Los Angeles, where they will visit Mrs. Lee's parents, Mr. and Mrs. John H. Jones, well-known residents of that place.

WEST SIDERS LISTEN TO WATER ARGUMENT

RICHMOND, July 17.—Nearly 400 west-siders gathered at the open air meeting on Washington avenue last night, at which the yolk of the water bond was urged by speakers. Music was rendered by the Richmond concert band. The following named spoke in favor of the project: City Attorney Hall, Mayor E. J. Garrard, E. H. Tibbets and D. A. Knowles of the City Engineer's office. The speakers quoted statistics to show urgent need of a system of this sort.

MINING COMPANY HOLDS ELECTION OF OFFICERS

RICHMOND, July 17.—At a meeting of the stockholders of the Richmond Gold Mining Company, today in Oakland, George C. Smith, 581 Third street, Richmond, was chosen as president, M. A. RICHMOND, July 17.—Ankered because Mrs. E. B. Bartolini, a pretty woman of about 25 years of age, employed by the Santa Fe Company, would not accept his advances, according to her accusation, Antonio Francisco, employed by the same company, locked the woman in a car yesterday afternoon. Mrs. Bartolini was terribly beaten about the face and head. She swore out a warrant for her assailant's arrest and at a late hour last night he was captured by Officers Elgerman and Special Officer Mahneke. He is in the city prison under \$2000 bail.

TAX ROLL GROWS WITH NEW TRACTS

Richmond Assessments Are
This Year \$626,000 Greater
Than During 1913.

RICHMOND, July 17.—City Assessor L. E. Marshall has completed his tax roll and announces that there will be an increase in the roll of \$626,000, making the total \$15,861,000 instead of \$15,235,000 for last year. There are three rolls and to show what a remarkable increase in population and property holders the city has undergone, Marshall asserts that the first roll shows 1030 names. Basing his figures on this showing, he believes that there will be over 12,000 individual assessments against \$600 for last year. In speaking of the matter Marshall said: "Last year I will have twenty. The increase in the assessed valuation is due to the number of new tracts which have been put on, and the number of improvements which have been made in property." "It was decided to increase the tax rate rather than the roll, so that the county could not secure the benefits from the increase, whereas by an increased city tax the municipality would benefit from the act."

COUNCIL SCORES IN CITY HALL CONFLICT

RICHMOND, July 17.—Advantage in the city hall site legal battle was won yesterday by City Attorney D. J. Hall, Attorney Stanley Moore and Judge Demaree, who represented the city council, and George S. Wall, in the writ of mandamus action brought by Clyde E. Hopping, local agent for Burg Brothers, to compel the city council to call an election to vote upon the referendum and initiative petitions filed asking for an election on the acceptance of the Wall and the Nicholl offer. The battle was staged in the appellate court in San Francisco and was won by demurrers filed by the council to the Hopping request for a writ ordering the council to call the election. On the referendum petition, which deals with the council's contract with Wall, the court ruled that the demurrer should stand and that the question might be submitted at the general municipal election in April of next year. This decision was based upon the wording in the complaint. The demurrer of the council to the Nicholl initiative petition was overruled and this question will be decided on trial before the appellate court on July 27. At that hearing the court will take testimony upon the proceedings of the council, and the various phases of the city charter dealing with the initiative, complaint, gave the attorneys for the council five days in which to answer.

BOOSTER BANQUET WILL OCCUR SOON

RICHMOND, July 17.—Considerable enthusiasm was shown at the meeting of the Merchants' association last evening and it was unanimously decided to hold a big get-together banquet at a time which would be suitable to the Secretary of the San Francisco chamber of commerce, who will be asked to be the speaker of the evening. There are fifty strong enrolled in the association, all of which stated they had not sanctioned the action of the industrial commission in refusing to back the city of Albany in its fight for a lower fare to Oakland.

BURGLAR SCALES DRAIN PIPE; ROBS APARTMENT

SAN FRANCISCO, July 17.—A porch-climber who scaled a drain pipe in the rear of the Regia Apartments, 922 Bush street, made off with a gold watch and \$4 in coin belonging to W. C. Montgomery. Entrance was gained by jimmieing a window and when Montgomery and his wife returned home they found their apartments completely upset. J. F. Deiminger, a motorman of 271 San Jose avenue, reports the theft of \$129 in gold which he had concealed in his pocket. Philip Campbell, a resident of Reno, had his suitcase containing valuables to the amount of \$120 stolen from a McAllister street car this morning. Some one broke into a dressing room at the Gaiety Theater, 165 O'Farrell street, during the night and made off with a costly visa.

FILES \$25,000 SUIT FOR CARPENTER'S DEATH

Charging that James Howie, a carpenter, came to his death while working on a convent being erected by O. R. A. Korman, a local contractor, when a scaffold broke, hurled the man to the ground, Alexander Howie and Jane Howie have filed suit in the superior court against the Oakland contractor, claiming \$25,000 damages. They have filed suit as the sole surviving heirs of the dead workman. According to the complaint Howie was engaged with several other men in hoisting a plaster on the Europa Convent, being constructed by Ackerman. A scaffold broke and the workmen fell to the ground. Howie died of injuries received. The accident occurred August 5, 1913. The charge is that the contractor neglected to provide proper fastening and support for the plaster which caused the damage.

WOMEN OF THE SOUTH FOR HON. J. R. KNOWLAND

Ten Thousand Republican Voters Pledge Themselves to Work and Vote for Him for United States Senator

LOS ANGELES, July 17.—Hon. Joseph R. Knowland, candidate for the Republican nomination for United States senator, has just been endorsed by the Southern California Women's Republican Federation. It is stated that this federation represents 10,000 women in the southland.

Knowland is making a wonderful run in Southern California. Everywhere he speaks he is greeted by great crowds of people. That he will be the Republican nominee is certain.

The following resolutions adopted yesterday are as follows:

"Whereas, it being the purpose of the Southern California Women's Republican Federation to assist in the selection of those for public office of high character and who are likely to render the most beneficial service to the people, and

"Whereas, This purpose is particularly true as to such important office as that of United States senator, which office should be held by a man of the highest type, and

"Whereas, It is beyond question that it is most desirable, that not only the United States senator shall be irreproachable as to character, but of proved ability and ample experience to the end that the important and diverse interests of California shall be to the best possible end conserved, and

"Whereas, The Hon. Joseph R. Knowland is a candidate embodying all these requisites, through an experience of more than seven years as a member of the state assembly and state senate and ten years in the National House of Representatives, and through unofficial activities for the advancement and rebuilding of the entire state he has become thoroughly conversant with California's needs and requirements, and he has been foremost in the advocacy of all measures of particular importance to California, particularly those benefiting the citrus fruit and other industries peculiar to the southern section of the state, and

"Whereas, He has been prominent in all legislation relating to the Panama canal, which is of vast importance to this state and the Pacific coast, and he has accorded his earnest support to measures in which Southern California is chiefly interested, among which is the Owens valley water project and the Los Angeles harbor, and he has been fair and open-minded in securing equal rights for all citizens

"Therefore, In view of these facts and owing to his well-known fitness to represent the state of California in the highest national legislative body, be it

"Resolved That the Southern California Women's Republican Federation hereby endorses the candidacy of the Hon. Joseph R. Knowland for the Republican nomination for United States senator, and pledges its support in the campaign to secure that end."

Ventura Corrects Report

VENTURA, Cal., July 17.—W. H. Barnes, president of the Ventura Republican Club, has issued a statement denying the reports published in San Francisco to the effect that Samuel M. Shortridge has been endorsed by the Ventura Republican Club. Mr. Barnes said:

"I wish to emphatically deny that the Ventura Republican Club has endorsed Mr. Shortridge for United States senator. I have been told that a statement was published in San Francisco to the effect that we endorsed Shortridge, but I want to take this occasion to emphatically deny such a report. We have not even considered any such question."

Six Killed, Nineteen Injured in Collision

NORFOLK, Va., July 17.—Six persons were killed and nineteen injured in a collision between an electric train on the Virginia Passenger and Power Company, and a coal train on the Virginia Railroad early today at Fairmont Crossing, about three miles from Norfolk.

Only two of the dead were identified. They were Samuel K. Cuthrell and Miss Annie Meehan of Norfolk. Crossing trainmen say the safety gates were down and the electric train crashed through them into the freight train.

Brookes said the team would leave this afternoon for Chicago, where they are to meet the Canadians in play on July 23, 24 and 25.

WOULD END MARITAL WOES. SAN FRANCISCO, July 17.—Menaced by a long handled hatchet which her spouse continually carried and which he used for threatening her life on repeated occasions, Mrs. Helen Kovacic, after nine years of marital existence, went for the most part in fear and trembling, filed suit for divorce today.

HEAT WAVE IN MILITANT CUTS N. Y. CAUSES DEATH PORTRAIT OF CARLYLE

Torrid Wave in Metropolis Is Intense; Cyclone in Kentucky. Suffragette Uses Butcher's Cleaver on Famous Painting.

NEW YORK, July 17.—One death and several prostrations from the heat wave were reported in New York at noon today. At that hour the temperature was 83 degrees and rising. More oppressive than the heat was the humidity, which hovered between 75 and 85 degrees. Thunderstorms were forecast for the afternoon.

RAIN BREAKS WAVE. ST. LOUIS, July 17.—A high wind, accompanied by rain, today broke the heat wave that has gripped St. Louis for three weeks.

LIGHTNING KILLS TWO. HENDERSON, Ky., July 17.—Two persons were killed, several others injured and scores of buildings damaged when a cyclone struck this city late yesterday. It is estimated the damage will reach \$150,000. The municipal electric light plant was partially destroyed and the city was in darkness last night. Fires started in two different sections after the tornado had passed, but were quickly extinguished.

The dead are Mrs. William Sewell and her thirteen-year-old nephew, Bonnie Prior. Both were crushed to death when a three-story brick building was blown over on their home.

The cyclone started at the south edge of the city and swept a path four blocks wide and twelve blocks long through the main business and residential section. It lasted but one minute.

Interurban communication with Indianapolis was cut off and it may be several days before it is resumed.

STORMS GENERAL. CHICAGO, July 17.—One man was killed by lightning, a number of persons slightly injured in shocks, several buildings were damaged and basements in the down town districts were flooded yesterday afternoon in an electrical storm which was accompanied by a heavy downpour.

Storms were general in Central Iowa and Northern Illinois, according to reports to weather bureau here last night. The heaviest precipitation was in Chicago, where 1.65 inches of rain fell in less than an hour and a half.

Two deaths from outside the city were reported from the Northwest. Peterson was struck by lightning on his farm near Paw Paw, Ill., and George Boileau was blown from the roof of his house at Dixon.

KANSAS CITY, July 17.—Two deaths caused by the heat occurred here last night. The victims were Eugene D. Vain, an engineer, and Ridge Q. Hyde, a stenographer.

Rain in various parts of the south-west last night and early today brought relief from the excessive heat that prevailed during the last three days. In many places in Kansas the rain was accompanied by severe wind and electric storms.

At Topeka the wind reached a velocity of 60 miles an hour, blowing down hundreds of trees.

Lightning struck several residences in that city, but no serious damage resulted.

Thunderstorms came on the heels of the hottest day of the year in Kansas and Western Missouri and last night most places in this section reported relief from the hot wave that sent thermometers above the 100 degree mark.

One man is dead, killed by lightning, and several prostrations from heat occurred in Kansas. In several cities new heat marks for the season were recorded. Salsburg reported the highest temperature in the state, 105 degrees, while Topeka, with 102, and Leavenworth and Emporia, each with 102, were among those setting new season records.

Prosecutor Bags One Deer and Policeman

With two deer pelts and the scalp of one Cloverdale policeman as trophies of the chase, District Attorney W. L. Hynes returned this morning from his vacation.

The deer he shot on the trip. The Cloverdale policeman's scalp is the result of his arrest at the beginning of his trip, when he, Dr. O. U. Hamlin and several others were apprehended and charged with violating the speed limit.

Hynes managed, when the case came to trial, to cause the policeman to testify that the machine was going at three separate speeds. Hynes then paid the fine imposed, but on his return called to the attention of the Cloverdale authorities the fact that the trial was held on a Sunday, that the testimony of the policeman was varied and remarkable—and as a result the policeman was dismissed.

The district attorney has returned with honor satisfied, and a coat of tan, ready for a strenuous season of work, with a registration investigation and several important trials before him.

King's Cousin Weds

LONDON, July 17.—A romantic courtship culminated yesterday in the marriage of Prince Louis of Bourbon, cousin to the King of Spain, and Miss Beatrice Harrington, a pretty London girl. The wedding was celebrated quietly in a London church without the knowledge of the royal family of Spain.

LONDON, July 17.—A militant suffragette slashed today with a butcher's cleaver the portrait of Thomas Carlyle, the Scotch historian, painted by Sir John Millais and hanging in the National Portrait Gallery. The woman was arrested after a struggle with the attendants. At the police station she gave her name as Anne Hunt.

The attendants had the greatest difficulty in preventing Miss Hunt from doing further damage. She struggled desperately but eventually was handed over to the police. She was bleeding profusely from cuts on her hands, caused by the breaking of glass.

Mrs. Emeline Pankhurst, the militant suffragette leader who had been out of jail on bail only a few days, was arrested again last night.

ON WAY TO SPEAK. Mrs. Pankhurst was released on July 11 on a four days' license and since then had been staying in a nursing home. It had been widely advertised that she would address a meeting of the Women's Social and Political Union in Holland Park Hall last evening and the police had made elaborate arrangements to intercept her.

A legion of officers was thrown about the house in which she was stopping. At 8 o'clock a motor ambulance drove up outside and a few minutes later a procession left the house, headed by a bodyguard with clerical and doctors. Following them came Mrs. Pankhurst on a stretcher, accompanied by several nurses.

As the suffragette was placed in the ambulance two detectives sprang in with her and another seated himself beside the driver. Then, before the bodyguard realized what had happened, Mrs. Pankhurst was speeding toward Holloway jail.

CROWD RIOTS. Beyond a little hooting and some cheering, there was no demonstration among those about the house and the crowd quickly dispersed.

A scene of mob fury occurred at Holland Park Hall where Mrs. Pankhurst had planned to speak. Owing to the exclusion of men from the meeting a crowd stormed the hall, smashing every window with poles in an effort to get in.

Many fights occurred about the doors and several persons were injured.

MUSIC TEACHERS MEET HERE 1915

California Association Selects Oakland for Convention During Exposition.

The California Music Teachers' Association has voted unanimously in favor of Oakland and the headquarters of its convention next year according to word received here this morning by Joseph E. Caine of the Commercial Club from Alexander Stewart, president of the Alameda County Teachers' Association.

The association, together with the Commercial Club, will arrange a combined musical festival and water carnival in which famous choirs and orchestras will participate. Over 1,000 musicians will make Oakland their headquarters during convention week and concerts will be given in the auditorium, the Greek theater and on Lake Merritt.

Stewart in his telegram mentions that the Music Teachers' convention in San Diego is deluged with literature from Alameda county.

Great interest, he says, is being taken by the delegates in the arrangements for the 1915 musical festival in Oakland and the San Francisco, San Diego and Los Angeles delegates have promised to cooperate with the Alameda county association and the Oakland Commercial Club in planning the double event.

President Is Busy Despite His Doctor

WASHINGTON, July 17.—Disobeying the orders of his physician, President Wilson slipped out of his room today and went to the executive offices to attend to some business which accumulated yesterday while he was ill of an attack of indigestion.

He explained to White House officials that it got on his nerves to stay in his room while there was work to be done.

He did not plan to receive visitors, but signed a number of papers.

BOND FOUND GUILTY OF MISS LEEGSON MURDER

CHICAGO, July 17.—Lease Bond, a negro was found guilty today of the murder of Miss Ida G. Leegson, art student and robbed last October on a lonely field near Arzo, Ill., where she had been living then on a private farm.

The jury which returned the verdict of guilty fixed Bond's punishment at imprisonment for life.

Bond was identified by several persons as the man who was seen carrying Miss Leegson's suit case near Arzo and witnesses also testified that he panicked Miss Leegson's watch after the murder had been committed.

SEARCH FOR NURSE ENDS WEDDING BELLS CHIMING

MISS MARY GIBBS, OF LOS ANGELES ROMANCE.

LOS ANGELES, July 17.—Matrimony or testimony? Sydney Holyoke, fighting to break his father's will wanted testimony. But Cupid, watching beside him, led him into matrimony, and tomorrow will see the culmination of a pretty romance when he claims as his bride Miss Mary Gibbs, trained nurse. The ceremony is to be performed at the Church of Our Saviour at San Gabriel.

It was all arranged, a secret, for nurses that he met his fate. He wanted Nurse No. 1 as a witness. He found Nurse No. 2. She wasn't the right nurse. He then found Nurse No. 3. It was Miss Gibbs. Then Cupid grabbed his bow and arrow.

and now the wedding is to end the story.

The romance started when Holyoke, the son of the late lumberman, started out to break his father's will. His parent had left more than a half million to his twin nieces, Magdalene and Marjorie Holyoke, to which his sons, Sydney and Harry, objected.

NURSE WANTED. To make their objections legal, however, they needed the testimony of Miss Corinna Haestrom, the nurse who attended Holyoke in his last illness, and the son set forth to find her. It had been hoped by the sons that she would testify that their father was not rational when he made his last will.

They traced her to Fresno. There Holyoke found Miss Gibbs. A few hours later they were on a train bound for Los Angeles, and the engagement was announced. In the meanwhile the Los Angeles courts found a decision in favor of the sons and the widow of the dead man, and Holyoke returned from a trip to Milwaukee to both a bride and a fortune.

"The fortune doesn't interest me any," declares Miss Gibbs, "save that it brought us together."

She is now with her parents at Pasadena. The couple will make their home in Los Angeles.

Workmen Electrocuted In Oil Storage Tank

FRESNO, July 17.—John Budko was killed, Gus Yeager fatally burned and two others received minor hurts yesterday when working in a storage tank of the Union Oil Company between Lindsay and Exeter. A giant derrick used in placing the tank accidentally swung against a high power transmission line of the Mount Whitney Company, transferring the current to the tank. Two of the men were standing on wood within the steel tank and so escaped.

BATTLE IN CHICAGO'S STREETS

Sixty Shots Are Fired in Fight; Friction Alleged

Encounter Between the Rival Details Follows Night Raid

CHICAGO, July 17.—With one detective dead and three wounded as a result of a revolver battle last night in Chicago's vice district, officially reported closed, police officials attempted to untangle the accounts of the fatal affray between members of the department.

The dead detective, Stanley J. Bierns, was a member of the regular plain clothes force. John C. Sloop, Bierns' partner, was shot through the thigh. Joseph Merrill and Fred Amart, detectives of the morals squad, were wounded less seriously. James C. Carroll, who said he was an investigator, also was wounded.

In the investigation by Chief of Police Gleason two facts stand out—that the killing and wounding of the policemen were precipitated by a gang of levee characters, and that many of the shots fired came from weapons in the hands of the gangsters. It was thought that several of the crowd of vice district characters were wounded and had been hidden by their friends.

It is said the moral squad men, Merrill and Amart, did not recognize Bierns, Merrill and Amart had been policemen but a short time. They had just raided a disorderly resort and sent a wagonload of prisoners to the station. A gang of levee hangers-on followed and bierns, Merrill and Amart as they walked away from the place.

"Look at the stool pigeons," they yelled.

THROW STONES AND BOTTLES. Stones and bottles were thrown and detectives drew their revolvers. Just then Bierns and Sloop ran up to disperse the mob.

"Look out. They've got guns," some one cried. Then the shooting began. Merrill said the first shot was fired by a man in the crowd, who dodged behind a woman. Another woman had just fallen he said, having been hit by a brick. Merrill said he emptied his revolver at the man.

Detectives Schubert and Cary of the Twenty-second street police station broke up the riot and took Amart, whose wound was slight, to the station, where he is being held.

DENIES FRICTION. Captain P. J. Ryan of the Twenty-second street station, in whose precinct the shooting occurred, denied that friction between officers working out of the detective bureau and his station and investigators of the morals squad had anything to do with the shooting. He asserted no shot would have been fired if Amart and Merrill, who have been on the force for sixty days, had not lost their heads.

A few moments before the clash occurred four men of the morals squad had raided an alleged disorderly house on Twenty-second street. It was the first move of Major Funkhouser following his assertion that the old levee district had reopened and he was going to close it.

After the prisoners seized in the raid had been sent to a downtown station the four detectives started

COR. 9th AND WASHINGTON STS.

ACCUSED NURSE MAY ESCAPE TRIAL

Mrs. Kinkaid Not Served With Warrant Charging Murder.

SAN JOSE, July 17.—(Ill. unable to be proved, and accused, but not formally charged with the murder which the officers are holding over her head. Mrs. Evelyn Jane Kinkaid, the former nurse, accused of the murder of Kathleen Fitzgerald, is now practically free, the guards having been removed from her premises. The local sheriff's office refused to serve the warrant, claiming that place would assume responsibility. Whether the tangled maze of evidence is not sufficient to warrant this, or whether the Placer county officials are not sure of themselves, is not stated. The local sheriff's office declares that it must be convinced that the whole affair is not a matter of an insurance company seeking to avoid payment on the Bisset policy.

Mrs. Kinkaid is too ill to travel and there will be no further developments in the case until the chemical analysis has been completed of the brain and viscera of Mrs. Bisset. The toxicologists don't expect to make any report for a week or longer.

In the meantime Deputy Sheriff Elmer Gum of Placer county and District Attorney Clark of that county have left for their homes. They declare that they were hampered by being forced to make the details of their evidence public before they were ready to.

Former District Attorney William H. Langdon of San Francisco has in the meantime been engaged as attorney for Mrs. Kinkaid, and will from now on look after her interests. It is stated that he may proceed against insurance companies accused by Mrs. Kinkaid of seeking to make her trouble in their efforts to avoid payment of their policies. In the meantime she is still in custody, and none of the officers probing the case want to serve the warrant.

District Attorney Clark yesterday admitted he was doubtful of the whole affair, and said that he was forced to proceed as he did because it had become public knowledge that Mrs. Kinkaid, who was then known as Mrs. Eva Rinehart, was suspected of the crime.

"When I came to San Jose I thought that we would find a simple woman," said Clark on his arrival yesterday morning. "I had no idea that we would find a woman with a mind that was so complicated with the fact that the evidence we had about the case had become public and forced us to proceed before we were ready. Has greatly hampered the case."

"There is much evidence, some of which is corroborative, to show that Mrs. Kinkaid is involved in the case. Another week of quiet investigation would have seen us better able to act."

H. Ray Fry, Mrs. Kinkaid's attorney, said that he would be responsible for the appearance of the woman in court at Auburn any time she was wanted. At the same time he admitted that if Mrs. Kinkaid disappeared he knew of no way in which he could be held responsible.

MYSTERIOUS NIGHT PROWLER AT WORK

Visits Home of Mrs. P. A. Ziegenfuss on Three Separate Occasions.

A mysterious night prowler who has for several nights been heard walking under the windows of the home of Mrs. P. A. Ziegenfuss, 475 Thirtieth street, was reported to the police today and an effort will be made to capture the man or to keep him from a second disturbing visit.

Mrs. Ziegenfuss, it is not known whether the man was a burglar seeking means of entering the house or a "peeping Tom." Mrs. Ziegenfuss informed the police that she had heard the man two nights ago at 9 o'clock, and again at 2 in the morning, and that she heard him about 11 o'clock last night. Lieutenant Bert Curtis of the northern station found footprints in the garden, and will have the house guarded tonight.

MAY PROSECUTE M. D. AND CHEMIST

Testimony in Case of Habitual Morphine User Shows Standing Prescription.

A searching investigation by the state pharmacy board, which may result in trouble for at least one Oakland drug store and may also mean charges against a local physician is threatened following disclosures made today in the hearing before Superior Judge T. W. Harris of the case of Alice G. Craft, committed to prison for one year as a habitual user of morphine. The evidence of Mrs. Craft's sister, Mrs. Mae G. Corley, brought out the fact that the woman had been given a standing prescription, which she had filed and carried to get the drug, contrary to the state law in the matter. It was further shown that she had gotten into trouble in Portland some time ago over the same matter.

"The woman had absolutely no business to have this prescription," declared Judge Harris, "and the doctor had no business to issue it. I have no action to take in the matter. If there is any prosecution it must come through the district attorney's office or the state pharmacy board. The doctor in question may be handled by the state medical board."

Judge Harris refused to divulge the name of the physician in question, but his findings would, if demanded by the state officials, disclose all facts in connection with the case. According to Mrs. Corley, her sister used drugs in Portland, once getting into trouble over an affair similar to the one heard in court today. Following this, says Mrs. Corley, she left the city of Portland for Oakland, but resumed the habit following an operation. At this time she secured, from a Fruitvale physician, the prescription which calls for morphine as often as desired, contrary to state regulations on the matter of drugs. The evidence in the case showed many bottles brought into the courtroom, and bearing the name of an Oakland druggist, which showed that the prescription had been refilled without question. "I will give out no details of the matter," declared the judge, "because

that is out of my province. Were I to make facts public in a case of this kind it might hamper the state's action should they investigate, and if there is no investigation there is no reason why I should have anything to say about it. It is my impression that the woman should never have been given that prescription or sold the drugs. I will say that much, but I do not care to go further with it."

MARY KINCAID, NOTED EDUCATOR, NEAR DEATH

SAN FRANCISCO, July 17.—Mrs. Mary Kincaid, noted educator and for years a member of the board of education, is lying in a precarious condition at the 22 Drisco apartment, 2901 Pacific avenue. Her relatives have been at her bedside since last night fearing for death at any moment.

The statement was made today that Mrs. Kincaid could not recover. The educator is 69 years old and has always borne a prominent part in the educational life of the community. She was at one time principal of the Girls' High School, also president of the San Francisco State Normal School. She retired from that office and went on a trip to Europe. Returning after an absence of nearly six years Mrs. Kincaid was made a member of the board of education, serving three terms under Mayor Phelan. Appointed again by Mayor Taylor, she has been reappointed by each of the succeeding mayors, thus holding office during four different administrations. She is regarded as an authority on discipline and text books.

Mrs. Kincaid was a graduate from a finishing school at Benloia, after which she came to this city and spent the greater part of her life here.

SUES ONE WIFE; OTHER SPOUSE DIVORCES HIM

While he is suing wife No. 1 for a divorce, wife No. 2 is suing Carl V. Snow for an annulment of marriage, the two court actions being designed to straighten up a marital tangle resulting from Snow's recent wedding. Snow, who is his first wife in New York, in 1901. He asks a divorce on ground of cruelty. The second wife, Margaret A. Snow, asks an annulment on the ground that Snow has not been divorced from the other woman.

SLEUTHS TRAIL NELMS SISTERS

Women Are Held by Kidnapers Near Houston, Is Latest Theory.

Following a trail that leads to Houston, Texas, police officers are running down the latest clue to the mystery of the missing Nelms sisters and the threats of death, supposedly made by Mrs. Eloise Nelms Dennis against her brother in San Francisco. That the women are being kept prisoners somewhere near Houston, is the belief of the detectives, who are inclined to think the letters received by their mother were "bluffs." Sergeant A. D. Luck of the Atlanta police, who has been following the case, wired this latest theory from New Orleans. He is now following up the trail from that city.

According to Sergeant Luck's evidence, he believed that the two girls were kidnapped in New Orleans in the latter part of June and are being held near Houston. He left for that city after a consultation with Police Superintendent James W. Reynolds of New Orleans and Chief of Detectives Dan Mooney.

In regard to the matter of Victor E. Innes, the former Carson City attorney, Luck places credence, he declared, in the statements of the family of the girls. He believes that Mrs. Dennis had gone to meet Innes, and that her other sister followed to prevent this meeting.

"To prevent her sister meeting this man," said Luck, "Miss Nelms followed her. Mrs. John W. Nelms, the mother, tells me this and I have every reason to place credence in her. When the police have interviewed the train crew which is supposed to have carried the two sisters from this city on June 26, we will know exactly where they left the Southern Pacific train."

The authorities on the Gulf Coast running down the rumors that the women were on Pett Rock Island, near Biloxi, declared today that the women on the island were not the Nelms girls, but members of a pleasure party.

That Mrs. Dennis and Miss Nelms were in Biloxi, Gulfport and other coast towns for several days seems unquestioned here.

They are also believed to have hired the yacht Mizpah, from Captain Claude Mout of Bay St. Louis, and to have taken a cruise to Pett Rock Island, where they were seen by a party of Biloxi fishermen and practically identified.

The Mizpah, it is understood, has been returned to its captain, but there is no trace of the women. No organized effort will be made to find them here or at Gulfport unless they should be seen in this section of the state again.

HOTEL MEN PLAN FOR EXPOSITION TOURISTS

The hotel men of Oakland at a meeting yesterday in the Commercial Club decided to co-operate with the sight-seeing companies in catering to the 100,000 tourists who will visit here during the exposition. By working together the hotel men consider they will be better able to benefit from the tourist patronage.

The railroad companies recently decided that no Pullman train or private cars would be parked within fifty miles of Oakland and tourists will thus have to seek hotel accommodation with the consequent benefit to the proprietors.

According to J. A. Boyd, manager of the Pacific Sightseeing Company, sight-seeing tours will be continued in Oakland following the Exposition and advertisements of the scenic and other attractions of the city will be sent out in the company's literature.

HE DANCES AS GEISHA TO PROVE HIS SANITY

Jacki Tai, a Japanese sailor, thought he was a Geisha girl, as he demonstrated in Judge Harris' court, where he danced and warbled. This morning he was examined before a lunacy commission, composed of the judge, Dr. S. H. Butts and Dr. O. D. Hamilton.

Tai had for some time been an inmate at the County Infirmary. Dismissed, he came to Oakland and was arrested yesterday after presenting a song-and-dance act on the street.

He has no relatives in this country. He is being held in the insane ward of the Emergency Hospital for observation.

WOMAN ACCUSES BANKER OF PERPETRATING FRAUD

KLAMATH FALLS, Ore., July 17.—Suit to recover \$20,870 has been begun in the Circuit Court of Klamath and Lake counties by Mary T. Lines of Los Angeles against P. M. Reidy, formerly vice-president of the First Trust and Savings Bank of this city.

The complaint charges that the money was secured through a fake charwoman scheme to defraud the woman, while Reidy was acting as her agent. With the complaint, property to the amount of \$30,000 in Klamath Falls was attached by Mrs. Lines.

ENGLISH CHAMPION TO PLAY WILLIE HOPPE

NEW YORK, July 17.—Melbourne Inman, the English professional billiard champion, arrived today from London on the Aquatania. He was met by Willie Hoppe, whom he is to meet in matches at American and English billiards. The first of eleven sessions will be played in New York on September 28. The men will also play in Chicago and Montreal.

WOMEN ORGANIZE CLUB FOR WHIST TOURNAMENT

The Twentieth Century Whist club was organized yesterday at the home of Mrs. E. L. Mitchell, 424 Fourth street. The club will meet every Wednesday afternoon next week at the Mitchell home again. Yesterday Mrs. W. A. Engle was the first prize and Mrs. Edward Monahan, the consolation. Refreshments were served yesterday, and it was unanimously decided to hold the first meeting of the month at A. O. U. W. hall when the final game of the tournament will be played and crown the champion.

Gunboat Smith and Carpentier to Be Rematched; American Tricked Out of Laurels

RELATIVE TO THAT HISTORIC PHRASE "HANDS ACROSS THE SEA" IT WOULD APPEAR THAT AMERICANS ARE DOING MOST OF THE HANDING.

FOUL BLOW DIDN'T HURT FRENCHMAN, SAY RING EXPERTS

Quick Witted Carpentier and His Seconds Seized the Opportunity.

LONDON, July 17. — "Gunboat" Smith and his manager, "Jim" Buckley, said today he intended to make a further effort to arrange a return fight with George Carpentier, French heavyweight, who yesterday was awarded the decision at Olympia when he was disqualified in the sixth round for hitting the Frenchman while he was on the ground.

The American boxer declared he was willing to meet the Frenchman anywhere and at any time, and would prefer that the winner should take the entire purse or gate money.

Smith today asserted that he never would fight again before a cinematograph. He said his eyes were weak and he had to wear glasses in the sunlight. Last night the glare of the lights hurt him and he thought this possibly had something to do with his striking Carpentier while the Frenchman was down.

Smith insists that even if his glove touched Carpentier it was unintentional and the blow did not hurt his opponent. Any other boxer, he said, would have continued the fight.

As to the blow which knocked him down in the fourth, Smith said that while it was a hard one it did not put him out and he had simply remained down to gain the benefit of the rest.

While insisting that his eyes were weak, Buckley is making a formal protest against the referee's decision on the ground that it had been arranged for the seconds to run the fight until after the referee had given his decision. Deschamps, the Frenchman's manager, Buckley points out, disregarded this arrangement and jumped into the ring immediately he saw there was a chance of winning the bout on a technicality.

The boxing experts of the evening newspapers are as divided in opinion in respect to the force of the foul blow given by Smith as they are in respect to the morning papers. Men with actual ring experience such as Fred Welsh, the lightweight champion, however, say that Carpentier was not hurt and that the scene which followed the foul blow was the result of quick, simultaneous working of the brains of Carpentier and his seconds.

Eugene Corri, the referee, it is admitted by all, is not a very capable man who over dommed a glove in a California ring. The pair of featherweights, as the headlines of the West Coast club say, will box next Wednesday evening.

Moore is already lodged at Billy Shannon's San Rafael resort, while Miller as usual is training at the Association club gymnasium in his home town. Moore Tausig intends to untie the purse strings when Eddie starts Wednesday evening, and a host of San Francisco fans will do likewise. Miller will receive plenty of backing from across the bay, but Oakland fans will undoubtedly favor Moore.

All the past matches between these two boys have been very close, and the referee has given neither the advantage. Miller is sure he can beat Moore in ten rounds, and Moore is just as certain that he will be able to gain an advantage over the middle-distance. At any rate, it is a very close race.

On the one hand Moore is a fast and hard hitting fighter, and on the other is Miller, clever, clean, cunning boxer, type of pugilist. The old saying that whenever a boxer and a fighter hook up there is sure to be a good match holds good for these boys. From the day of the fight, Moore likes the close work, trying to rough it out the time, while Miller pretends to let Miller's blow and more often but he does not have as much steam behind them.

Moore fought a great ten round battle with Willie Fitzsimmons in Oakland recently and the latter was stopped. Willie had the shade the better of the fight, and the referee was forced to stop the bout. Willie was not hurt, but the blood was flowing so fast that he was unable to see.

The winner of the Miller-Moore bout will probably be matched with Fitzsimmons for the championship of the coast. Frank Waldorf is out with a challenge for a return match with Joe Heavyweight. Waldorf is anxious to put up a side bet that he can beat Heavyweight, who stopped him at the Victorian show Wednesday night.

Johnnie Tillman has been matched with Leach Cross in Los Angeles for July 26. Dick Hyland and Sally Salvador come together tonight at Dreamland rink for their second meeting. In their first engagement, several weeks ago, the bout was declared a draw, and as Hyland is in better condition for this match, Sally will have a hard time of it. The betting on the first bout favored Salvador, but Dick made such a good showing that he is now putting even money on the even.

A special event between Frankie Jones and Willie Robinson has been arranged. This is also a return engagement. The last time the boys met, it was a fast go. The balance of the card is as follows:

Kid Exposito vs. Joe Stanton, 125 pounds; Johnny Arrows vs. Paul Peterson, 125 pounds; Ray Richardson vs. Jimmy Reynolds, 135 pounds; Mike Morris vs. Bill Sloan, heavyweights; Kid Spooner vs. George Riley, 125 pounds.

Manuel Vieira who has been taking a long rest in the country, is now active. He is especially anxious to get a return match with Willie Fitzsimmons, who took a decision from him several months ago. Vieira has been living in Harvard and writes the country air has done him a world of good, and he feels as if he could beat any featherweight around this section.

EDDIE MILLER, WHO WILL MEET ROY MOORE AT THE WEST OAKLAND CLUB NEXT WEDNESDAY.

'BIG LITTLE' MEN ARE NEXT ON FISTIC PROGRAM

Roy Moore and Eddie Miller to Settle Their Old Time Quarrel.

(By THE TIMEKEEPER.)

And now we have Roy Moore and Eddie Miller, two of the "biggest little" men who ever dommed a glove in a California ring. The pair of featherweights, as the headlines of the West Coast club say, will box next Wednesday evening.

DIAMOND FLASHES

The Seals took another last-inning victory yesterday. In the ninth, Schaller walked, and studies by Down, Tobin, and Howard, brought in two runs, winning the game, 4 to 2.

The appearance of Deschamps on the mound for Venice, brought a protest from Manager Howard. It is claimed that Deschamps' presence on the Venice squad violates an agreement over the twenty-player limit.

Henley was rather wild in the first game, hitting three of his old teammates, but with the Tigers hitting behind him, Venice had no trouble in capturing the contest.

Del Howard pulled a boner in the first game and decided not to take a chance in the second. He did, however, get into the game and batted for Charlie Charles in the ninth. With three on the bases, Del brought in the winning run.

After four hits and two errors had brought in five runs for the Tigers in the fifth inning of the first game, off the pitching of Pete Standridge, he was replaced by Barham.

After a close game, which might have ended in victory for either team, Boies dropped the ball when trying to tag Bancroft at the plate in the eighth inning. The latter's score broke the 2 to 2 tie game and a half of the lead.

Rube Ellis got three hits out of four times to lead.

In the second game between the Pittsburgh Pirates and the Oakland Athletics, Gibson was ordered from the field for disputing a decision at the plate.

Cravath came through with a double with two on in the tenth inning, winning the game from St. Louis.

Two hits by Walsh, of the Athletics, against Chicago yesterday brought in five runs. The first was a single, the second a home run.

Cook, former Oak shortstop and captain, was given the last out when he came to the plate in the first inning. Al came through with a nice single.

The first two innings of yesterday's game took 46 minutes. The bat thrower's contest took up some of the time, and the pitchers worked slow. The whole game was slow, taking two hours and fifteen minutes.

Murphy, running for Hettling in the eighth, was thrown out by Eddie Egan. Taddy also caught Zacher at second stop.

Hettling's grounder to Cook in the eighth looked like a sure hit, but the former Oak made a great stop.

Hern made a pretty play on Killian's grounder in the fourth. The ball was a fly, but he for some reason it and made a toss to Cook for an out at second.

Hettling had plenty of time to score in the second inning, when Christian not the ball high to Nees in trying to catch Hern on a delayed steal. Hettling must have been dreaming of someone else as he did not stir from the bag.

Temper Tinner came up from Los Angeles and worked with Gutlin. He has been working alone for the past week because of Billy Fitz's illness. He was put in the game in the seventh inning, and he has another double-header this week.

Little Lessons for Swimmers HOW TO PREPARE FOR RACE

(By ERNIE SMITH, Collegiate 100-Yard Record Holder.)

When a swimmer has become proficient enough to venture into competition the question of training and preparing for his race become his next problem. Swimming training divides itself into the practice in the water, and the food and sleep problems. As to the first, it is advisable to swim as much as possible before the meet, making a minimum of a dip every other day. Don't try for speed in practice. Content yourself with trying to attain good "form." This much-talked-of word means swimming with a stroke which appears graceful and easy. To develop this kind of a stroke swim slowly, entering your arms into the water with the least possible splash, and getting a steady "pull" from them. Practice this kind of swimming suit.

time you practice make three or four dives, and get some one to tell you whether or not you entered the water with your body straight and toes extended. Also make several "turns" as these are very important in the race. A quick turn is an asset which is always valuable.

As to the matter of eating; different constitutions demand different methods of dieting, but certain things are always to be avoided. These things are whatever tend to create gas in your stomach or make your blood bad. Avoid too much sweets. Pastry should not be touched in the last two weeks of training. Leave off ice cream in the last week. If you are inclined to be nervous don't drink coffee in the last week. Eat regularly, having certain hours of eating. Sleep eight hours a night until the last evening when it is customary to get eleven or twelve hours. If possible take a nap the afternoon before the meet. Allow no one to talk swimming to you in the days before the meet.

If you find that on the night of the meet you are nervous and feel more or less weak, dive in the water about an hour before your race and swim a slow fifty yards. Dry down briskly and rest on your back till the race. This is often a good warm up and sufficient shock to relieve the nervous strain of the race. Always keep warm and do not let your feet get wet and cold.

NOW, FIGURE IT OUT YOURSELF

Following tables show standing of the Coast league clubs at the half-way mark and at the finish of each race of the last four years. It will be noticed that only one has a team which was in the second division at the half-way post succeeded in breaking in with the leaders in the last half. Venice outlasted Los Angeles in 1913. The pennant winners have always been in the first division at this time of year.

Billy Fitz Says, Says he:

We take it that Uncle Sam's batting average this season will not be sufficient to cause any excitement amongst European sports.

The Oaks are either following in the footsteps of the American athlete, or they are following the footsteps of the American athlete.

Let's see, all we've lost is the relay, polo, and heavyweights. We still have tennis and the yacht cup for a little while.

After reading ninety-nine different descriptions of that sixth round, all told by eye witnesses, we are more than ever profoundly impressed with human intelligence.

America still has two champions—Curtis and the American athlete. But come to think about it—they're Irish!

Now that it has been turned his contract, permit us to call attention to the fact we are showing today. "Locks" in the Gas Chamber, or Can They Get Out? Introducing two rival casts of Desperate Desmonds. We guarantee bat-slinging, cuss words, spikes, knockouts and dotted-dash looks with every ticket. Step up, ladies and gentlemen, and get your tickets!

Yes, the two "little brothers" of the coast league opened the season, well lullied all by themselves. They staged the third reel of the drama on the Oakland lot yesterday before a large crowd and the audience was very properly stepped up. The Oaks spotted the game away, thus satisfying the abnormal appetite of the home ground jinx, but Sacramento knew it had been in an actual combat before the final curtain fell. The indications are that the balance of the series will have enough paprika in it to satisfy an army of anarchists. The casualties promise to be quite heavy.

That bat-slinging episode in the second inning yesterday of the local game, which ended in Dan Klawitter and Tommy Tennant both being thrown out of the game, was but an indication of some of the bad feeling existing between the two clubs now engaged in a death struggle for the cellar title. Tennant, hit on the shoulder by a pitched ball, swung his bat blindly at the pitcher, whereupon the crowd roared the loudest. Klawitter, it is said, and let fly again at Tennant. Of course, Mr. Klawitter and Mr. Tennant could just as well have stuck out their tongues at each other, but they didn't. The crowd of it. Gutierrez tossed them both out of the game, which was another mistake.

Gutierrez should have fined the players and let them remain in. Discipline would have been upheld just as well, and the crowd which paid its money to see Klawitter pitched against Malarkey would not have been cheated.

Later on in the game Stewart, running home on a hit, was knocked unconscious at the plate by Mize, quite accidentally, and then Quinan was almost beaten by Malarkey. Tommy addressed himself to Malarkey for five minutes, speaking with the utmost precision and eloquence. Another quarrel developed over the batter's practice.

Carl Bruner, the Sacramento dope fiend, thinks that Walter McVie would train his Beavers in the art of malingering.

Describes Modern Perfumes, the Art and Secret of Making Them.

THE HISTORY AND USE OF PERFUMES—Part III.

Many flowers give forth sweet odors that seem impossible to catch and transform into a base for perfumery, and in some climates flowers are absolutely useless for purposes of perfumery making. In Bulgaria is grown the rose from which we get the famous otto of rose, and the extensive flower gardens at Nice, Grasse, Cannes, all along the Mediterranean are the source of the essential oils that form the basis for all the high priced perfumes made. From other parts of the world come a small proportion of perfume-yielding flowers, but Bulgaria and the famous garden spot on the Mediterranean seem favored above all others in this respect.

WHY CALIFORNIA DOES NOT YIELD PERFUMES.

In California flowers, especially roses, heliotrope and violets, grow freely and to large size, giving forth a plenitude of odors. A great deal of capital has been invested in the production of these flowers for the cultivation of perfume-yielding blossoms, but thus far in vain. Whether the French and the Bulgarians hold the secret of the manufacturing of the essential oils, or whether certain places are so peculiarly favored by nature that it is impossible to reproduce them, it is difficult to say; anyway, since perfume making became a commerce in Europe the center of the industry has been Grasse, and the descendants of the original perfume makers now ply the trade and alone possess its secrets.

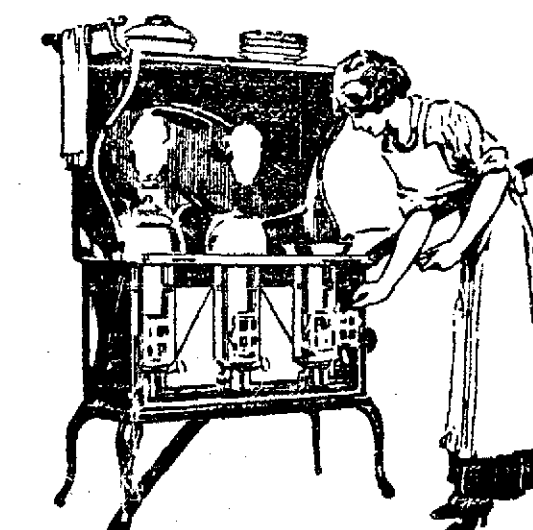

ACTION OF THE SUN ON FLOWERS.

It has been discovered by chemists that the rays of the sun bring out the odoriferous qualities valuable for perfume making. In Grasse and its neighborhood not only does the sun provide a steady warmth for a large number of months of the year, but it is reflected back by the surrounding mountains. These same hills form a complete shelter from storm and wind and the air is singularly pure and free from dust. These climatic and geographical advantages are not reproduced in any other part of the world.

The flowers from which the famous Bulgarian otto of rose is made are not large, but very compact and singularly sweet. The peculiar quality of this rose is explained by the soil in which it grows. It

Ready at the touch of a match

With a good oil cook stove there's no delay or bother—no lugging of wood, coal or ashes. There's no smoke—no waiting for the fire to "catch up." Cooking starts at once and when you're through you simply turn off the heat—no fuel wasted. The

New Perfection OIL COOK STOVE

is not just a "quick lunch," light housekeeping affair. It is a complete all 'round stove that you can bake, broil and roast on just as well as on a wood or coal range—and a lot cheaper. Best of all—it doesn't overheat the kitchen. An Ideal summer stove. Doesn't smoke. Doesn't taint the food. Dealers everywhere.

MISS BESSIE DENT, WHOSE ENGAGEMENT TO ELWOOD STEPHENS IS ANNOUNCED.

THE Wallace Alexanders are still doing tennis tournaments in England, but they will sail for home this month. On their return they are going to build a wooden tennis court at their Piedmont place.

They are the latest thing in tennis courts. Wood floor covered with green canvas like a stage lawn, suggesting distant mountains stretching into a canvas perspective at the end, or some other appropriate "drop." The Malcolm Whitmans have just built one in Hillsborough. Malcolm Whitman was a tennis star of Harvard in his day and only last week won honors in a match played on the new court with some of California's crack players.

Also the Joseph D. Grants have a wood floor court at their Burlingame home. It was the first one in the west. They are quite common in the east, and in England, where experts are enthusiastic over the superiority of wood over turf. More spring to it. Like a ball-room floor, it responds to the quick steps of the players and a good floor is an inspiration in tennis as it is in dancing.

Of course the canvas is painted a perfect grass green and surrounding lawns meet the canvas, so the effect is quite as it should be. But the fact remains it isn't "lawn tennis" they play on a wood court. Royal tennis or just "tennis" was introduced in England several centuries ago and was played in long halls on wood floors. A hundred or so years later some one evolved the idea of "lawn tennis" out of doors, and it's a slightly different game from the original tennis. But how can lawn tennis be played on wood and canvas? Properly speaking it should be called imitation lawn tennis.

HOUSE PARTY IN BURLINGAME. Miss Ernestine McNear and her fiancé, George Nickel, will be members of a George Nickel party at which Mr. and Mrs. Pelton will be hosts over the week end in Burlingame. Other guests will include Miss Isabel Chase and Edmund Lyman. The party will attend the dance at the San Mateo Polo Club Saturday evening.

RETURNS TO MONTECITO. Miss Florence Henshaw who came up from Santa Barbara for the Ellis-Henes wedding on Tuesday, has been spending a few days at Rose Crest, the Henshaw home in Oakland, but returned today to Montecito. The Henshaws are entertaining a great deal at their Montecito place, where Miss Alice Grimes is a guest this week.

IN SANTA BARBARA. Miss Marguerite Doe entertained members of the summer colony at Santa Barbara at a luncheon last week at the Montecito Country Club. Her guests included Mrs. Talbot Walker, Mrs. John Driver, Mrs. Emma Rutherford Kearney, Mrs. Thornhill Broome, Miss Marjorie Zelle, Miss Emmaline Childs, and Miss Florence Henshaw. Another affair of the week in Santa Barbara was a dinner given by Dr. and Mrs. Oliver Dwight Norton, who entertained

TO RETURN FROM PARIS. Miss Cora De Marville, who has lived abroad with her father, Dr. H. B. De Marville, for several years, will return to California in the fall and will be one of next winter's debutantes. She is a niece of Mrs. Harry Alston Williams of Berkeley, and her cousin, Miss Florence and Miss Emma Williams, will do much entertaining for her. Miss De Marville's mother, the late Mrs. De Marville, was Miss Cora Cadore, a great belle in San Francisco society a score of years ago, and many of her old friends will welcome the debutante next season.

NOON WEDDING. The wedding of Miss Elizabeth Stott and F. H. McConnell took place at noon yesterday at the Stott residence, in Haines street. Only sixteen guests were present at the ceremony, which was performed by Rev. Lapsley McAfee of the First Presbyterian church of Berkeley. The bride wore a becoming gown of gray crepe de chine with touches of old gold and a great hat. Her bouquet was a shower of lilies of the valley. There were no attendants. After the wedding breakfast the bride and groom departed for Yosemite on their honeymoon, and on their return will establish their home in Berkeley.

ENGAGEMENT ANNOUNCED. The engagement of Miss Bessie Dent and Elwood Stephens has been announced. Miss Dent is an attractive and accomplished Oakland girl, the daughter of the late S. P. Dent. Mr. Stephens is the son of Mrs. C. J. Stephens and the late C. J. Stephens of Oakland, and is connected with the Southern Pacific. The wedding will take place August 18, at the home of the groom's mother, and will be a small affair with only relatives present. The young couple will live in Oakland.

RETURNS SOUTH. Charles Keeney, who has been the guest of his sister, Mrs. Talbot Walker in Santa Barbara, spent several days of this week in San Francisco, but left for the South this morning. He will visit the Walkers several weeks longer.

IN BERKELEY. Mrs. W. M. Boyce and Mrs. H. H. Boyce of Santa Ana, who are visiting their parents, Professor and Mrs. Allyn will remain until the last of August. They will entertain at an informal tea before their departure. The two sisters, as Miss Anita and Miss Florence Boyce, were popular belles of the Berkeley set a few years ago, and their friends are doing much in an informal way for their entertainment.

WEDS LOS ANGELES MAN. A pretty wedding of the week was that of Miss Teresa Cianciarulo, and E. A.

Mr. and Mrs. Henes will also visit Yosemite before returning to their Eastern home. Mr. and Mrs. Louis George Henes, (Evelyn Ellis) will be guests at the Ellis residence in Oakland avenue on their return from their honeymoon, until the house they have taken in Linda Vista is ready for occupancy.

NORTHWESTERN PACIFIC SOON TO ENTER EUREKA

EUREKA, July 17.—Eureka is soon to lose its distinction of being the largest city in the United States unconnected with the outside world without a railroad.

In September the last spike will be driven in the line by which the Northwestern Pacific will enter Eureka by way of the Eel river canyon. The line will open for traffic about 2,000 miles square in extent and rich agriculturally, pastorally and minerally, which has hitherto been closed to the world. The run will also be one of the most picturesque in the world.

MILITIAMAN TAKEN ILL AT U. S. MANEUVERS

CAMP JACKSON, GEARHART, Ore., July 17.—The first case of serious illness in the maneuver camp of the Oregon and Idaho militia here developed yesterday. H. Buehler, a trumpeter in Company R, Third Oregon Infantry of Portland, was taken down with a high fever, which showed symptoms of typhoid. Buehler is one of the few men in the Oregon regiment who has not received the arm inoculation against typhoid. Battalion attack and defense were simulated and the fire points in the technique of battle were pointed out and studied in the maneuvers yesterday.
